El volumen aborda el español tal como se asentó y desarrolló en territorios del continente americano con la conquista y colonización en todo su espectro variacional. Incluye, por lo tanto, una noción implícita de los 18 Estados soberanos, que tienen el castellano como lengua oficial con sus hablas cultas y populares, si bien considera, al mismo tiempo, las lenguas mixtas o lexicalizadas por el castellano, p. ej. la media lengua o los criollos hispánicos, así como las variedades migradas o formadas por migración, p. ej. el isleño o el cocoliche. Al titular el manual *El español en América*, se acentúa, por un lado, la noción de la gran diversidad y riqueza de las variedades

hispanoamericanas y, por el otro, rechaza la idea de que existan variedades nacionales. Así, enfatiza con su aproximación, en gran parte transnacional, los resultados de los múltiples contactos y desarrollos lingüísticos autónomos en el continente, desde Tierra del Fuego hasta Alaska, a partir de planteamientos conceptuales asequibles y con un anclaje histórico bien fundado. El volumen realiza un recorrido por la vasta geografía actual del español en tierras americanas al incluir fenómenos como el desplazamiento migratorio, la urbanización, el influjo de los medios de comunicación, las actividades de estandarización y elaboración, el desarrollo terminológico o la globalización. De esta manera, intenta brindar, con artículos de variada extensión, una perspectiva amplia y panamericana, así como un acercamiento crítico y transdisciplinario a la temática que atañe. Pretende ser –tanto para la comunidad científica como para los estudiantes universitarios– un compendio de

Durante siglos la edición ha cambiado muy poco. El editor ha tenido siempre un pie en el territorio de la cultura y otro en el de los negocios. Cualquiera que incursione en la actividad editorial debe saber conjugar, a partes iguales, intuición para configurar un catálogo atractivo y planificación para hacer económicamente

sostenible su empresa. Con la irrupción de lo digital, las exigencias para el editor se han multiplicado. A la cadena de valor del libro impreso, se ha sumado lo que algunos expertos han llamado la red de valor del libro digital, en la que muchos procesos han cambiado por cuenta de la desintermediación, los actores se han multiplicado y el editor debe reconsiderar la forma en que hace posible el descubrimiento de sus títulos a un mayor número de lectores. Este Manual de edición busca guiar a todos los interesados a lo largo del proceso que conduce a la publicación de un libro tanto impreso como digital, desde el momento de su concepción hasta su venta. Manuel Gil y Martín Gómez analizan las similitudes y diferencias entre las cadenas de valor analógica y digital, exploran las posibilidades para la distribución de las obras que ofrecen los nuevos canales, así como también las estrategias de promoción y mercadeo que tienen en las redes sociales, entendidas como redes de recomendación, un activo fundamental. Se da cuenta, en suma, de los conocimientos que la industria editorial exige hoy al editor; conocimientos relacionados con el manejo de diferentes lenguajes de programación, la edición de contenidos para múltiples dispositivos, la gestión de comunidades en línea y el seguimiento y monitoreo de la información que arrojan las interacciones con los lectores en Internet.

The Kindle Paperwhite is an incredibly useful and versatile technology that looks as much on its own as an e-reader. In earlier times, large libraries could occupy entire huge buildings, and it could be costly and inconvenient for people to collect large amounts of books. The Paperwhite, on the other hand, is like a complete library of knowledge that fits in your backpack, briefcase or purse. It's no wonder that e-book readers are becoming more and more popular these days. But, as with all new technologies, you need to know how to use them to get the most out of them, no matter how advanced or practical they may be. This user guide focuses on how to get the most out of your Kindle Paperwhite. Here are is a preview of this book: What is Kindle Paperwhite e-reader? How to setup your Kindle
