From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the

first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental

impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be

operated without loss of life and loss of habitat.

Primedia Business Directories & Books First invented in 1830, the early lawn mower was hampered by the inadequacy of materials and machine tools available and its development and speed did not pick up until the introduction of chains and small lightweight petrol engines. This book traces the progress

of the lawn mower from the early hand or animal powered mowers, through to steam, petrol and electric-powered modern machines.

One day I was 12 years old
and broke. Then Grandma
gave me Grandpa's old
riding lawnmower. I set out
to mow some lawns. More
people wanted me to mow
their lawns. And more and
more. . . . One client was
Arnold the stockbroker, who
offered to teach me about
"the beauty of capitalism.
Supply and Demand.

Diversify labor. Distribute the
wealth." "Wealth?" I said.
"It's groovy, man," said
Arnold. If I'd known what
was coming, I might have
climbed on my mower and
putted all the way home to
hide in my room. But the
lawn business grew and grew.
So did my profits, which
Arnold invested in many
things. And one of them was
Joey Pow the prizefighter.
That's when my 12th
summer got really interesting.
