Nikon D4 and D4S: An Easy Guide for Beginners Amherst Media, Inc

En los últimos años he recibido muchísimas solicitudes de hacer una antología, una recopilación de los artículos más populares del blog. Es fácil dejar pasar artículos, dadas las carreras que la vida nos interpone cada día. Este libro me ofrece la oportunidad de reunir mis artículos favoritos en un solo lugar, y de agrupar una diversidad de ideas, emociones, y lecciones en algo más coherente. Es divertido, educativo y ante todo, real. Editar estos artículos ha sido como editar fotografías, seleccionas las que más te impactan, las que tienen memorias especiales y poseen entre ellas algún tipo de conexión estética o emocional. Las siguientes 25 historias son una selección de lo más popular, emocionante y educativo del blog, los artículos que más resonancia han generado entre los lectores. El libro tiene dos secciones — La Luz y La Vida. La sección de La Luz cubre muchos detalles sobre la ciencia y el arte de la iluminación. Encontraras una gran cantidad de técnicas y estrategias de iluminación, tips y selección de equipo. La sección de La Vida es acerca de mis experiencias como fotógrafo, que han sido a veces dolorosas, a veces divertidas, mas espero logren ofrecer anecdotas educativas. Escribir un blog hasido distinto a escribir un libro, ya que es mucho menos formal, mas auténtico. Ocasionalmente he escrito acerca de viejos recuerdos o eventos en los cuales he podido reflexionar. En otras ocasiones, los artículos se han generado espontáneamente gracias a las experiencias vividas ese mismo día en alguna locación, de las frustraciones de subirse a un avión cargando montones de equipo fotográfico, o de tener que manejar a un cliente o sujeto complicado. Son los afanes sin editar de la experiencia fotográfica. El blog pasa de opiniones concretas, a lecciones técnicas, a reacciones rápidas y divertidas de las cosas bobas y frustrantes que pasan cada día a trabajando en una locación. Son recuentos honestos de lo maravilloso, fascinante, loco, triste, frustrante, remunerador, desalentador y glorioso que es ser un artista visual. Y porque traducir estas historias al Español? Es algo que he querido hacer por mucho tiempo, sobretodo después de haber conocido tantos fotógrafos maravillosos y apasionados en México y Sur América que luchan por alcanzar sus sueños. Quiero poder compartir mas con ellos. Agradezco a mi buen amigo Eduardo Angel quien tradujo todas estas historias con destreza técnica y gran cariño. Espero que este libro sea del agrado de todos. – Joe

Some photographers make portraits that we can't take our eyes off of. These images create mood, evoke emotion, and pique our curiosity. They have that certain something that other portraits seem to lack. These rare images are memorable—the kind of shots that clients want and photographers strive to emulate. These portraits are technically precise and have style. Neil van Niekerk is a big name in the portrait and wedding photography industry. His masterful photographs get a reaction, and he's devoted to helping others create compelling portraits for their clients. In this book, van Niekerk shows readers strategies for creating a wide range of portrait looks (romantic, fun, sweet, dramatic, glamorous, or moody) in lackluster, middle-of-nowhere locales, small home studios, big expanses, and even on rooftops. Starting with traditional lighting and posing strategies and moving through "spicier" varieties, he shows readers how integrating specialized lighting (rim lighting, backlighting, flare, and low-key lighting—using natural light and artificial sources) and compositional approaches (shallow depth of field, lens compression, and unorthodox perspectives) into their creative approach can allow them to take full creative control over their portrait-taking process so that they're able to deliver incredible shots of their clients in any photographic conditions.

Wedding photographers are under tremendous pressure to capture once-in-a-lifetime moments—from the bride's preparations, to the ceremony, to the reception, and the exit. They are forced to shoot in low light in every wedding—whether in poorly lit ceremony and reception venues or, later in the day, when the peak lighting has faded. This presents myriad problems and obstacles to achieving beautiful, artfully executed images of the events of the wedding day. In this book, popular photoeducator Brett Florens and contributors provide digital photo techniques and lighting solutions—from reflectors, to LED lights, to flash—that will help you ensure that no important image is lost to poor light or exposure concerns. From choosing and using the best camera settings to scouting locations with interesting, workable light, to creating gorgeous artistic effects, this book provides the skills you need to get THE shot at every stage of the wedding and in any locale.

Identifying a beautiful image in nature is easy, but capturing it is often challenging. To truly seize the essence of a photograph shot out of the studio and in the world requires an artistic eye and impeccable set of photographic techniques. John and Barbara Gerlach have been teaching photographers how to master the craft of photographing nature and the outdoors through their workshops and best-selling books for more than twenty years. Now, equipped with brand new images to share and skills to teach, this celebrated photo team is sharing their latest lessons in the second edition of Digital Nature Photography. Notable revisions in this new edition include introducing the concepts of focus stacking and HDR, as well as expanded discussions of multiple exposure, wireless flash, RGB histograms, live view, shutter priority with auto ISO, hand-held shooting techniques, and the author's equipment selections. The inspiring imagery in this book covers a broader range of subjects than before including ghost towns, the night sky, animals, and sports, in addition to the classic nature photographs we expect from this very talented author team. This book is a comprehensive guide to one of the broadest subjects in photography,

explained and demystified by two respected masters.

Moody's International Manual Dived Up Publications

I've gotten a lot of requests the past few years to make a keepsake, a compilation if you will, of the favorites from the blog. It's easy to miss a blog post—anyone's post—because the rush of day-to-day life intercedes. This book gives me a chance to put some favorite posts together in one place, and to collect a lot of thoughts, feelings, and lessons into something coherent. It's humorous, educational, and most of all, real. Editing for this book was like editing pictures. You pick the ones that resonate, have the potential for memory, and possess some sort of emotional or stylistic connection. The following 25 stories are a cross section of the most popular, educational, and madcap posts from the blog. The ones that have struck a chord with readers. The book has two sections—“The Light” and “The Life.” The Light section deals with the nuts and bolts of using flash and crafting light. There's a bunch of techniques, strategies, truisms, and gear talk. The Life section is about a photographic life, about being a shooter—which is sometimes painful, sometimes humorous, but hopefully, at the end of the day, anecdotally educational. Writing the blog has been different from writing a book because it's less formal, and a little more raw. I have occasionally written about times gone by, and events I've had a chance to reflect on. On other occasions, a blog has spontaneously sprung from the events in the field that day, from the frustration of getting on an airplane with a lot of photo gear to dealing with a difficult subject or client. It's the unedited rushes of the photographic experience. It veers from considered commentary, to technical lessons, to quick, funny riffs about the exasperating, goofy stuff of any given day in the field. It's quick off the mark, and an honest account of just how wonderful, amazing, crazy, sad, frustrating, rewarding, disheartening, and ultimately glorious it is to be a visual storyteller. - Joe
