Heterocycles as Chiral Auxiliaries in Asymmetric Synthesis Mobile Library Taxidermy, once the province of natural history and dedicated to the pursuit of lifelike realism, has recently resurfaced in the world of contemporary art, culture, and interior design. In *Speculative Taxidermy*, Giovanni Aloï offers a comprehensive mapping of the discourses and practices that have enabled the emergence of taxidermy in contemporary art. Drawing on the speculative turn in

philosophy and recovering past alternative histories of art and materiality from a biopolitical perspective, Aloï theorizes speculative taxidermy: a powerful interface that unlocks new ethical and political opportunities in human-animal relationships and speaks to how animal representation conveys the urgency of addressing climate change, capitalist exploitation, and mass extinction. A resolutely nonanthropocentric take on the materiality of one of the most controversial mediums in art, this approach relentlessly questions past and present ideas of human separation from the animal kingdom. It situates taxidermy as a powerful interface between humans

and animals, rooted in a shared ontological and physical vulnerability. Carefully considering a select number of key examples including the work of Nandipha Mntambo, Maria Papadimitriou, Mark Dion, Berlinde De Bruyckere, Roni Horn, Oleg Kulik, Steve Bishop, Snæbjörnsdóttir/Wilson, and Cole Swanson, *Speculative Taxidermy* contextualizes the resilient presence of animal skin in the gallery space as a productive opportunity to rethink ethical and political stances in human-animal relationships. [Adobe GoLive 5.0](#) Penguin UK Prime Minister Malcolm Turnbull celebrates Australia as ' the most successful multicultural nation in the world ' . This is a grand claim and important to a sense of identity and belonging, but at

times it seems that multiculturalism is more an article of faith than a work in progress. What it really means in the twenty-first century is the focus of Griffith Review 61: Who We Are, which will examine both the opportunities offered and the complexities involved. The nation ' s population has virtually doubled since 1975, and in recent years the rules around migration have been altered significantly. Those who have chosen to make their home here in the past have changed Australia, and waves of new arrivals continue to transform the country. Yet the apparent certainties of Australia as a permanent settler society are giving way to the precarious churn of temporary migration. This edition will give voice to this changing reality, explore the big issues of belonging, citizenship and participation, and tease out how contemporary Australia might evolve. This is a rich field, replete with policy questions and personal narratives. It is a success story, but the full picture is complex, and past achievements no guarantee of future results. The nation ' s boundaries are imaginary as much as physical, and constantly contested by an unsettled history and a shifting present. Renewed assertions of national identity run parallel to the increasing globalisation of opportunity and threat, as if the more fluid the world becomes, the greater the urge to hold onto something fixed and stable. Yet do we really know who ' we ' are? Where does Australia begin and end? Who can claim to belong and who can be legitimately excluded? Julianne Schultz AM FAHA is the founding editor of

'An eclectic, thought-provoking and uniformly well-written collection.' Australian 'This is commentary of a high order. The prose is unfailingly polished; the knowledge and expertise of writers impressive.' Emma Seaton was comfortably if unexcitingly engaged to Victor Harrison; he was a wealthy business tycoon, and Emma could look forward to a life of ease and luxury with him—but was that all she wanted from life? She became even more aware of her doubts about Victor when she met the disturbing Miguel Salvaje, who made no secret of his attraction to her, and Emma soon admitted to herself that she in turn was attracted to him. The situation grew even more intense when Miguel virtually blackmailed her into marrying him instead of Victor and bore her off to his home in Mexico. The tense situation between them

might have resolved itself happily, however, had Emma not discovered that she was expected to share her home with a third person—someone even more overpowering than Miguel himself.
