#### Manual Or A Wiring Diagram

Wiring and electrical issues are way over my head -  
All I really know to do is check breakers and the  
GFCIs. If it's a circuit to bathrooms or the  
exterior outlet, it very well could be the GFCI.  
Just reset all the plugins with the GFCI. You could  
also use a tester to make sure the wiring is  
healthy - other than that I'm clueless. Sorry!

*Free User Manuals By Brands / ManualsOnline.com*

Start by looking in your owner's manual or any  
other paperwork that came with your product. If  
you don't happen to have them handy, you'll  
also find the model number printed right on the  
unit. Air conditioners, heat pumps including  
geothermal and packaged products.
