Our lives are marked by firsts. First love, first car, first marriage, first kid, first heartbreak, and first camera. For many photographers of my generation, earlier generations, and younger generations, there are legions who can say that their first “ real camera ” was the Pentax K1000. With a production run spanning more than two decades (1976-1997), more than three million

In spite of being the normal lens with the right price, it is probably sharp. It can make the incredible macro lens when you use it with the reversing ring because of attaching it bayonet-end outward on 50 to 200mm zoom. Its coating works well with the digital camera especially Pentax k1000, the manual ring and focus are very surprised.

The K1000 isn’t the perfect camera, it may not even be a great camera. Personally, I’d choose several other machines before settling for this Pentax. But even so, the K1000 managed to do what few cameras seldom do; it helped me relive the magic moment in which I fell deeply in love with the art of photography.
