The Pentax K1000 35mm SLR is one of photography's greatest, most popular and longest-lived cameras. This Pentax film camera is completely mechanical and needs no battery to run, however, you must purchase an A76 cell battery to run the light meter. Unlike other SLR and DSLR cameras, the K1000 is simple and has little to no learning curve.

Something that was super simple -- maybe not K1000 simple, but had merely A, S, M and maybe a P mode, simple autofocus with an easy manual override (and a simple zoom lens with an easy-to-grip focus barrel). Maybe auto exposure bracketing, but no focus stacking, no stabilization, no scene modes, no flash, no video capability and no microphone.
