Plugin Alliance has a great selection of
eminently musical, useful plugins many of
which are optimized for both AAX DSP and
native environments. Authorization allotments
are very fair and managing auths could not be
easier. Most important, the Alliance listens to

users and focuses that input on innovation and
product improvement.

Plugin Alliance products use a proprietary
licensing system that is completely software
based. No hardware license dongle, special
drivers, or serial numbers are required to run
any of our plugins. Everything is handled from
within the software product. All of your
licenses are stored in a single file located on
your computer or USB flash drive.

Slope: This selects the slope of the crossover filters, or how rapid the transitions are between frequency bands. Lower values will allow for more overlap between the bands, leading to less dramatic transitions between the rows. Unity: When enabled, the individual bands' gains will always be compensated to maintain an even value when the bands are summed.
