This book represents an important new departure in New Testament textual criticism. David Parker offers, for the first time, a different way of reading the Gospels that treats seriously the fact that they first existed as manuscripts. Through an analysis of different forms of a number of key passages, he demonstrates that the Gospels cannot be properly understood as texts without taking into consideration their physical existence as manuscripts, printed books and electronic text. In conclusion, he argues that the search for an original text of the Gospels is a misunderstanding of the way in which the early church passed down its traditions.

The lands surrounding the Black Sea share a colourful past. Though in recent decades they have experienced ethnic conflict, economic collapse, and interstate rivalry, their common heritage and common interests go deep. Now, as a region at the meeting point of the Balkans, Central Asia, and the Middle East, the Black Sea is more important than ever. In this lively and entertaining book, which is based on extensive research in multiple languages, Charles King investigates the myriad connections that have made the Black Sea more of a bridge than a boundary, linking religious communities, linguistic groups, empires, and later, nations and states.

"The Life in Christ by Nicholas Cabasilas is a remarkable product of Byzantium's last great flowering of theology. At a time when secular humanism was increasingly asserting man's complete autonomy, Cabasilas proclaimed that man's true life lies not in himself, but in Christ. For him, man's redemption in Jesus Christ is not just a matter of history, which can be elucidated simply by scholarly endeavor. It is a saving event in which man is called to participate here and now, in body and spirit as well as intellect, through the

sacramental life of the Church." "The present translation makes this devotional classic available for the first time in English, while the extensive introduction by Boris Bobrinskoy assesses its place within the history of eastern spirituality."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
