More than a memoir
of a custom cafe
racer build this
book is a tribute
to a teacher who
inspired young
people to be
creative with their
minds and capable
with their hands.
Growing up in

Fargo, North Dakota
in the 1970s and
80s, The Urban Monk
had the opportunity
to develop a love
for machines, metal
working and
motorcycles. This
book provides a
glimpse into what
life was like for
the author and his
young friends in
Fargo during that
time. It is also a
poignant defense of
industrial arts
education in public

schools. After an over three year effort building a custom cafe racer in his spare time and documenting the entire process in videos shared with the world on his YouTube channel Urban Monk TV, the author tells the story of how this project became more than a custom motorcycle build - it became a tribute to his middle

school Metal Shop teacher who inspired him to go on to a life time of peaceful meditation in his garage with a wrench in his hand. Anyone interested in motorcycles, mechanics, do-it-yourself projects or a historical retrospective of life in 70s-80s Fargo will enjoy this pleasant read. **Servicing Single-piece**
