Traducir y escribir son ejercicios que exigen plenitud intelectual y, como tales, deben desplegar la paciencia, la claridad, la mesura del decoro, la discreción de la prudencia y, sobre todo, el amor por cada letra que es germen de la palabra. Pero, al traducir, amor denota luchar sin claudicaciones en medio de una jungla verbal con la convicción de que siempre quedará un espacio intraducible entre las dos lenguas y también significa saber -ansias insaciables de saber-, un saber vigorosamente ambicioso sobre la lengua que nos identifica para darnos con más respeto a los demás, ya que cada voz nos expresa y los expresa. Los ojos ajenos y

los nuestros tienen sed de deslumbrarse ante los textos traducidos, de penetrarlos, de ser palabras en las palabras de los otros y hasta de ser pensados por las palabras de los otros. Por eso, cada línea de escritura debe ser camino de belleza, un indiscutible hecho de arte.

Three-dimensional scoliosis therapy has for decades played an established role in the conservative management of mild and even of severe scoliosis. As well as describing every aspect of the pathologically curved, deformed spine, this textbook incorporates an extensive programme of exercises that can be tailored specifically to the needs of the individual patient. As outlined in Three-Dimensional Scoliosis Therapy: The Schroth Breathing Orthopaedic System, correction of the spinal deformity is based on a special breathing technique and active muscle stretching, as well as on elongation, detorsion and reduction of lordosis. The provision of psychological support for the patient is also emphasised as a key element. Christa Lehnert-Schroth born 1924 in Meissen She worked as a physiotherapist for about 50 years with scoliosis patients and further developed her mother's breathing orthopaedic technique with great success. Between 1961 and 1995 Christa Lehnert-Schroth - always surrounded by physicians - was director of the private Katharina-Schroth-Klinik in Bad Sobernheim/Germany. In many lectures, articles, seminars and films for physiotherapists and medical doctors in addition to recorded discs for patient's training at home she illustrated her mother's special method for

scoliosis assuring well being of many patients and in honor her mother's legacy.
