Il progetto Stari Bar nasce nel quadro di una cooperazione tra le Università di Venezia (Italia), Università di Koper/Capodistria (Slovenia) e le autorità montenegrine (Museo di Bar, Ministero per la Cultura, Sito Archeologico di Bar) e si inserisce all'interno del programma Culture 2000 finanziato dalla Comunità Europea. Il sito di Stari Bar (Antivari) rappresenta indubbiamente un luogo di straordinario interesse archeologico, innanzitutto per il grado di conservazione dei resti materiali. Una città distrutta ed abbandonata durante la guerra per l'indipendenza montenegrina ci restituisce, anche se a livello di rudere, l'immagine di una piccola 'Pompei' medievale. Obiettivo del progetto è lo studio delle fasi cronologiche dell'abitato, in relazione ai diversi gruppi sociali e culturali che vi hanno operato. Nel 2004 un primo studio delle architetture ha permesso di ricavare una valutazione archeologica della risorsa edilizia attraverso un'analisi della conservazione della leggibilità delle strutture della città. La valutazione preliminare sulla qualità dei depositi archeologici non ancora scavati, evidenzia l'eccezionale stato di conservazione delle stratigrafie e dei bacini sepolcrali, in relazione alle diverse fasi della città: bizantina, serba, veneziana e turca. Un saggio di scavo all'interno della Cittadella ha permesso di datare le strutture fortificate di questa area alla fine del XII secolo, costruendo la prima sequenza stratigrafica con cronologie assolute, con interessanti associazioni ceramiche, disponibile per l'intero sito. The project on Stari Bar is part of a cooperation between the University of Venice (Italy), the University of Koper/Capodistria (Slovenia) and the Montenegrin authorities (Museum of Bar, Ministry of Culture, Archaeological site of Bar) and is inserted in a wider framework, of which also the University of Innsbruck is part, funded by the European Union, that aims to study the ways and modalities that qualify the Venetian presence on the eastern coast of the Adriatic sea (Programme Culture 2000, The heritage of Serenissima). In this perspective some case studies have been analyzed (the shipwreck of Gnalic, in Croatia, the late medieval ceramics of some sites of Slovenia (Piran/Pirano, Izola/Isola, Koper/Capodistria) and Croatia (Sv. Ivan pri Umagu/S. Giovanni di Umago, Split/Spalato), and the site of Bar in Montenegro), in order to build autonomous guidelines for research, some of which have already been completed. The site of Stari Bar (Antivari - Old Bar) represents undoubtedly an extraordinarily interesting archaeological site, first of all for the degree of preservation of the material remains. A village destroyed and abandoned during the Montenegrin Independence War gives us a picture, even if in ruins, of a small fossil town: with its streets, its palaces, its houses, its churches and monasteries, its mosques and its baths. A site whose archaeological potential stopped in 1870 AD. Stari Bar has been for a long time among the objects of restoration of the Montenegrin Community. The site has already in fact been restored, consolidated, cleaned, re-fitted in the past, making it partially suitable for visits. In the occasion of these restorations, which respected the monuments and were realized after an attentive work of architectural mapping by a team led by prof. Durde Boskovic after the second world war, many artefacts have been uncovered that allowed to reconstruct the history of the site. Some of these objects (late medieval pottery from three contexts) have been recently studied and published by Miladen Zagarcin, as part of the present project. The book of the Montenegrin colleague is then the first product of this co-operation born under the sign of the heritage of Serenissima. But the archaeological resource contained in this micro-cosmos is in its greater part unexplored and will then be a success if our presence will be able to increase its knowledge and development. After this first campaign of research we would like to acknowledge many Institutes and people that helped us, encouraged us and supported us in our activity. On the Montenegrin side the Minister of Culture, Mrs. Vesna Kilbarda, the Superintendent of Montenegro Slobodan Mitrovic, the Mayor of Bar, Mrs. Anka Vojvodic, the director of the Centre of Culture of Bar Milun Lutovac, the director of the Museum of Bar Vladislav Kasalica and, of course, our friends Omer Perocevic and Miladen Zagarcin. On the Italian side the Ministry for Foreign Affairs, the Italian consulate of Podgorica and the Veneto Region for the fundings. Sauro Gelichi - Mitja Gustin Venezia - Koper, august 200

Learn how to take professional-quality photographs using the same tricks today 's top photographers use (surprisingly, it 's easier than you 'd think)!

This is a completely, totally updated version of the #1 best-selling digital photography book of all time! It 's the award winning, worldwide smash hit, written by Scott Kelby, that 's been translated into dozens of different languages.

Here 's how Scott describes this book 's brilliant premise: " If you and I were out on a shoot, and you asked me, ' Hey, how do I get this flower to be in focus, with the background out of focus?, ' I wouldn 't stand there and give you a photography lecture. In real life, I 'd just say, ' Put on your zoom lens, set your f-stop to f/2.8, focus on the flower, and fire away. ' That 's what this book is all about: you and I out shooting where I answer questions, give you advice, and share the secrets I 've learned just like I would with a friend—without all the technical explanations and techie photo speak. "

This isn 't a book of theory—full of confusing jargon and detailed concepts. This is a book on which button to push, which setting to use, and when to use it. With over 200 of the most closely guarded photographic " tricks of the trade, " this book gets you shooting dramatically better-looking, sharper, more colorful, more professional-looking photos every time.

Each page covers a single concept that makes your photography better. Every time you turn the page, you 'll learn another pro setting, tool, or trick to transform your work from snapshots into gallery prints. If you 're tired of taking shots that look " okay, " and if you 're tired of looking in photography magazines and thinking, " Why don 't my shots look like that? " then this is the book for you.

This friendly For Dummies guide will get you up and running in no time.

Nikon D3500 User Handbook Routledge

Practices of Archaeological Stratigraphy brings together a number of examples which illustrate the development and use of the Harris Matrix in describing and interpreting archaeological sites. This matrix, the theory of which is described in two editions of the previous book by Harris, Principles of Archaeological Stratigraphy, made possible for the first time a simple diagrammatic representation of the stratigraphic sequence of a site, no matter how complex. The Harris Matrix, by showing in one diagram all three linear dimensions, plus time, represents a quantum leap over the older methods which relied on sample sections only. In this book 17 essays present a sample of new work demonstrating the strengths and uses of the Harris Matrix, the first ever published collection of papers devoted solely to stratigraphy in archaeology. The crucial relationships between the Harris methods, open-area excavation techniques, the interpretation of interfaces, and the use of single-context plans and recording sheets, is clarified by reference to specific sites. These sites range from medieval Europe, through Mayan civilizations to Colonial Williamsburg, Virginia. This book will be of great value to all those involved in excavating and recording archaeological sites and should help to ensure that the maximum amount of

stratigraphic information can be gathered from future investigations.

How do you teach tolerance, self-awareness, and responsibility? How can you help children deal with fear, mistrust, or aggression? Play a game with them! Games are an ideal way to help children develop social and emotional skills; they are exciting, relaxing, and fun. 101 LIFE SKILLS GAMES FOR CHILDREN: LEARNING, GROWING, GETTING ALONG (Ages 6-12) is a resource that can help children understand and deal with problems that arise in daily interactions with other children and adults. These games help children develop social and emotional skills and enhance self-awareness. The games address the following issues: dependence, aggression, fear, resentment, disability, accusations, boasting, honesty, flexibility, patience, secrets, conscience, inhibitions, stereotypes, noise, lying, performance, closeness, weaknesses, self confidence, fun, reassurance, love, respect, integrating a new classmate, group conflict. Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. It specifies an objective for every game, gives step-by-step instructions, and offers questions for reflection. It provides possible variations for each game, examples, tips, and ideas for role plays. Each game contains references to appropriate follow-up games and is illustrated with charming drawings.

Mastering the Nikon D850 by Darrell Young provides a wealth of experience-based information and insights for owners of the new D850 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment.

This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles.

Darrell's friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

Mastering the Nikon D850 Academic Press

An All in One Guide to Master your Nikon D850 The Nikon D850 is a high resolution full-frame DSLR, boasting a 46MP backside-illuminated CMOS sensor. But, in a fairly radical departure for the series, it is also one of the company's fastest-shooting DSLRs. This combination of properties should significantly widen the camera's appeal to high-end enthusiasts as well as a broad range of professional photographers. The use of a backside illuminated (BSI) sensor means that the light collecting elements of the sensor are closer to the surface of the chip. This should not only increase the efficiency of the sensor (improving low light performance) but should also be expected to make the pixels near the edges of the sensor better able to accept light approaching with high angles of incidence, improving peripheral image quality. Taking the perfect shot requires more than just years of experience and good lighting! Knowing Your camera and what it offers you is a primary requirement. and this Nikon D850 manual provides clear, step by step instructions to help you take full advantage of your camera. Here's a preview of what you'll learn Learn about each button on your camera Understand the settings Get better photos in auto or manual mode Shoot, view, and edit movies Whatever the occasion you're shooting for, you'll get all the guidance you need to take excellent photos from now!

Measuring Self-concept Across the Life Span Routledge

Nikon 850 is one of the best cameras you can ever find out there, but how best can you use it? The Nikon 850 instructional manual is the complete guide to using the Nikon 850. This book is written with the beginner in mind and is excellent for seniors and first-time Nikon 850 users. Getting a new Nikon 850 digital camera is impressive; it can practically feel like getting a new toy. Nobody cherishes a toy that makes you read a long guidebook just to figure out how the darn thing works! That is why I have put this book

together for both beginners and expert, to teach you them the building blocks of using the Nikon 850 camera. It starts out by going over the feature and modes in the device, followed by defining some key terms that Nikon camera user needs to know. This book will explain all the basics settings, Dials, Modes, Buttons, Shooting Tips, tricks, hidden feature and much more. It covers only what most users want to know so you don't have to comb through hundreds of pages of technical jargon just to find out how to do a common feature. This book is written in a little more casual and fun than what you expect from most Nikon manuals. Click the BUY button Now!!! Leica R8 All ' Insegna del Giglio

Just Purchased the Nikon D3500 or looking for an all in one guide to help you get the best out of your new device? This book contains all you need to know and basic troubleshooting tips! The Nikon D3500 is the latest version of Nikon's entry-level DSLR. Launched at the end of 2018, it's effectively an update to the evergreen Nikon D3400, a starter DSLR that's been a long-term favorite. There haven't been many changes, and it's unlikely you'd want to upgrade your old D3400 (or D3300 before it) to the new D3500, but this refresh is enough to keep it in our list of the best cameras for beginners and best student cameras. The D3500 isn't just Nikon's cheapest and simplest DSLR, it's also its lightest, weighing just 415g, body only, and that's with the battery and a memory card. It will usually come with a lightweight 18-55mm AF-P kit lens which has a retracting mechanism to make it more portable when it's not switched on. It's not quite as small as a mirrorless camera, but it's light, fast enough and cheap enough to prove that there's life in the DSLR design yet. This camera is designed specifically for beginners, with simplified controls and a built in Guide Mode to help new users learn the basics. A user guide is very important since it will give you all information and also guideline to use any device and this Nikon D3500 user manual has been specifically designed to help you understand the functions and features of your camera. This Includes a setup guide, expansion, tips, experiences and troubleshooting information to help you get the best out of it. Here is a preview of what you will learn: Getting to Know the Camera. The Camera Body The Mode Dial The Viewfinder The Info button How to turn the Monitor Off Chapter Two First Steps How to attach the camera strap How to insert the battery and a memory card How to insert the battery: How to insert the memory card: How To Remove the Battery: How to Remove Memory Cards: Memory Cards How to charge the battery Camera Setup The Clock Battery: How to attach a Lens Lenses with Retractable Lens Barrel Buttons: Detaching the Lens: Retracting Lenses with Retractable Lens Barrel Buttons: Chapter Three Special Effects Night Vision Pop Super Vivid Selective Color Photo Illustration Toy Camera Effect Low Key High Key Chapter Four Recording and Viewing Movies How to record movies Viewing the Movie Crop Taking Photographs During Movie Recording Maximum
