90 Two (HB) By: Dastan Khalili DiaVerse, dia meaning "two" and verse for the poetic rhyme, is a brand-new style of poetry where the only rule is all stanzas must have a maximum of two words. Created by poet Dastan Khalili, the style of DiaVerse breathes new life into poetry. The restraint of DiaVerse forces poets to use the purest forms of expression. 90 Two is ninety of Khalili's DiaVerse poems, written over the last five years. He combines his poetic verses with digital artwork and imagery, each conveying a sensation of inspiration that came to life with each poem.

Explaining cybercrime in a highly networked world, this book provides a comprehensive yet accessible summary of the history, modern developments, and efforts to combat cybercrime in various forms at all levels of government—international, national, state, and local. As the exponential growth of the Internet has made the exchange and storage of information quick and inexpensive, the incidence of cyber-enabled criminal activity—from copyright infringement to phishing to online pornography—has also exploded. These crimes, both old and new, are posing challenges for law enforcement and legislators alike. What efforts—if any—could deter cybercrime in the highly networked and extremely fast-moving modern world? Introduction to Cybercrime: Computer Crimes, Laws, and Policing in the 21st Century seeks to address this tough question and enables readers to better contextualize the place of cybercrime in the current landscape. This textbook documents how a significant side effect of the positive growth of technology has been a proliferation of computer-facilitated crime, explaining how computers have become the preferred tools used to commit crimes, both domestically and internationally, and have the potential to seriously harm people and property alike. The chapters discuss different types of cybercrimes—including new offenses unique to the Internet—and their widespread impacts. Readers will learn about the governmental responses worldwide that attempt to alleviate or prevent cybercrimes and gain a solid understanding of the issues surrounding cybercrime in today's society as well as the

long- and short-term impacts of cybercrime.

YES, IT ALL REALLY HAPPENED JUST LIKE THIS... Here's the story of Rich Merritt—the good son, teacher's pet, Southern gentleman, model Christian student at Bob Jones University, Marine officer, and the not-so-anonymous poster boy for a New York Times Magazine article on gays in the military—whose complicated sexual past caused an international scandal when The Advocate "outed" him as "The Marine Who Did Gay Porn," putting his life in a tailspin. It's the compelling, poignant story of how a boy who never listened to pop music, never cursed, and didn't have his first drink until he was eighteen exploded into a life of drugs, alcohol, promiscuity, prostitution, and pornography. And above all, it's a triumphant story of self-forgiveness and identity, of a man who refused to allow himself to be defined by the standards of anyone else—gay or straight. Along the way, Rich Merritt writes with humor, compassion, insight and naked truth about: • What it's really like growing up behind the "Fortress of Fundamentalism" and how he ultimately came to despise their views • The harsh realities of military life under the "Don't ask, don't tell" Clinton policy • A real insider's experience of working in the male porn industry—the good, the bad, and the extremely hot • Why he chose not to reveal his porn past to the New York Times journalist • What it felt like to be the most notorious marine in the world and what it took to come through the fire By turns harrowing and heartbreaking, angry and affirming, Secrets of a Gay Marine Porn Star is that rarest of memoirs—a fascinating slice of life that reads like the most absorbing fiction, but is all true.

JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. "The son of the Wolf" (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, "The Call of the Wild" (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including "The Sea-Wolf" (1904), "White Fang" (1906), "South Sea Tales" (1911), and "Jerry of the South Seas" (1917). One of London's most interesting novels is the semi-autobiographical "Martin Eden" (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

"Adam Rapp's brilliant and haunting story will break your heart. But then his words will mend it. . . . Absolutely unforgettable." — Michael Cart On the run in a stolen car with a kidnapped baby in tow, Custis, Curl, and Boobie are three young people with deeply troubled pasts and bleak futures. As they struggle to find a new life for themselves, it becomes painfully clear that none of them will ever be able to leave the past behind. Yet for one, redemption is waiting in the unlikelyst of places. With the raw language of the street and lyrical, stream-of-consciousness prose, Adam Rapp hurtles the reader into a world of lost children, a world that is not for the faint of heart. Gripping, disturbing, and starkly illuminating, his hypnotic narration captures the voices of two damaged souls - a third speaks only through drawings - to tell a story of alienation, deprivation, and ultimately, the saving power of compassion.

This important reference work is an extensive, up-to-date resource for students who want to investigate the world of cybercrime or for those seeking further knowledge of specific attacks both domestically and internationally. Cybercrime is characterized by criminal acts that take place in the borderless digital realm. It takes on many forms, and its perpetrators and victims are varied. From financial theft, destruction of systems, fraud, corporate espionage, and ransoming of information to the more personal, such as stalking and web-cam spying as well as cyberterrorism, this work covers the full spectrum of crimes committed via cyberspace. This comprehensive encyclopedia covers the most noteworthy attacks while also focusing on the myriad issues that surround cybercrime. It includes entries on such topics as the different types of cyberattacks, cybercrime techniques, specific cybercriminals and cybercrime groups, and cybercrime investigations. While objective in its approach, this book does not shy away from covering such relevant, controversial topics as Julian Assange and Russian interference in the 2016 U.S. presidential election. It also provides detailed information on all of the latest developments in this constantly evolving field.

Convinced that all aspects of modern culture have been affected by avant-garde art, Renato Poggioli explores the relationship between the avant-garde and civilization. Historical parallels and modern examples from all the arts are used to show how the avant-garde is both symptom and

cause of many major extra-aesthetic trends of our time, and that the contemporary avant-garde is the sole and authentic one.

As the number of passenger cars in the world increases daily, so too does Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint--but their design and function has not been rethought since the 1950s. Here, urban designer Eran Ben-Joseph shares a different vision for parking's future--aesthetically pleasing, environmentally and architecturally responsible. He provides a visual history of this often-ignored urban space, introducing us to some of the many alternative and nonparking purposes that parking lots have served. He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas.--From publisher description.

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.

**The Theory of the Avant-garde** Haynes Publishing

Eighteen essays written by Buchloh over the last twenty years, each looking at a single artist within the framework of specific theoretical and historical questions. Some critics view the postwar avant-garde as the empty recycling of forms and strategies from the first two decades of the twentieth century. Others view it, more positively, as a new articulation of the specific conditions of cultural production in the postwar period. Benjamin Buchloh, one of the most insightful art critics and theoreticians of recent decades, argues for a dialectical approach to these positions. This collection contains eighteen essays written by Buchloh over the last twenty years. Each looks at a single artist within the framework of specific theoretical and historical questions. The art movements covered include Nouveau Realisme in France (Arman, Yves Klein, Jacques de la Villegle) art in postwar Germany (Joseph Beuys, Sigmar Polke, Gerhard Richter), American Fluxus and pop art (Robert Watts and Andy Warhol), minimalism and postminimal art (Michael Asher and Richard Serra), and European and American conceptual art (Daniel Buren, Dan Graham). Buchloh addresses some artists in terms of their oppositional approaches to language and painting, for example, Nancy Spero and Lawrence Weiner. About others, he asks more general questions concerning the development of models of institutional critique (Hans Haacke) and the theorization of the museum (Marcel Broodthaers); or he addresses the formation of historical memory in postconceptual art (James Coleman). One of the book's strengths is its systematic, interconnected account of the key issues of American and European artistic practice during two decades of postwar art. Another is Buchloh's method, which integrates formalist and socio-historical approaches specific to each subject.
