Hip Hop - you already know the history, now uncover the mystery. Warning! This book is not for everyone. If you feel that there's nothing wrong with the current state of Hip Hop, then this book is not for you. If you feel that gangsta rap, pimpin hos, violence, drugs, thug activity, and half naked women in videos have elevated Hip Hop as an art form; then this book is definitely not for you. If, on the other hand, you feel that listening to the same songs over and over on the radio that are laced with negative lyrics, watching soft porn or graphically violent videos, while reading the watered down Hip Hop magazines

that endorse this way of life has shaped the minds of our youth, and are collectively being used as part of a mind control operation to mentally and spiritually enslave our future generations; then welcome to... "Hip Hop Decoded:" From Its Ancient Origin to Its Modern Day Matrix.

Get Your Share Harper Collins This reader makes the key essays of 19th century French philosopher Félix Ravaisson available in English for the first time. In recent years, Ravaisson has emerged as an extremely important and influential figure in the history of modern European philosophy. The volume contains the classic 1838 dissertation *Of Habit*, studies of Pascal, Stoicism and the wider history of philosophy together with the *Philosophical Testament* that he left unfinished when he died in 1900. The volume also features Ravaisson's work in archaeology, the history of religions and art-theory, and his essay on the *Venus de Milo*, which occupied him over a period of twenty years after he noticed, when hiding the statue behind a false wall in a dingy Parisian basement during the Franco-Prussian war, that it had

previously been presented in a way that deformed its original bearing and meaning. Félix Ravaisson: *Selected Essays* contains an introductory intellectual biography of Ravaisson, which contextualises each of the essays in the volume. It also features an annotated bibliography of suggested further reading. This book will grant scholars and students alike wider access to his distinctive contribution to the history of philosophy.

with a profound respect for the dignity and value of others—the Gullah people of the South Carolina barrier islands. His canvases, beloved for their sense of jubilation and rediscovery, evoke the meaning of community in Gullah society and display a reverence for the rich visual, oral, and spiritual traditions of its culture. His art also reveals a keen awareness of the interpersonal, social, and natural environments in which we live. The 180 images assembled in this collection showcase the meaning, purpose, and beauty that Green finds in the small but critical tasks of life. His work elevates the everyday—preparing morning meals, doing the wash, accomplishing farming chores, finishing a day's work, relaxing in the evening—and celebrates the social and religious—community dances, baptisms, weddings, funerals. Green allows his audience the space and silence to observe people unobtrusively as they pursue life's mission of labor, love, and belonging and as they work in harmony with nature's mysterious, ever changing fabric. While Green's paintings speak specifically to his own upbringing, they transcend racial, cultural, and ethnic boundaries, thus allowing individuals of all backgrounds to recall fond memories and to reflect on

the place that purpose and dignity hold in their lives. In addition to a foreword by Pat Conroy, essays by Bettye J. (Mbitha) Parker Smith, Lynn Robertson, and Ronne Hartfield complement Green's images. They tell of the vitality of the Gullah community, the progression of Green's career, and the authenticity of his work. *Manga Majesty* Bloomsbury Publishing Five hundred years ago, Martin Luther's *Ninety-Five Theses* caught Europe by storm and initiated the Reformation, which fundamentally transformed both the church and society. Yet by Luther's own estimation, his translation of the Bible into German was his crowning achievement. The Bible played an absolutely vital role in the lives, theology, and practice of the Protestant Reformers. In addition, the proliferation and diffusion of vernacular Bibles—grounded in the original languages, enabled by advancements in printing, and lauded by the theological principles of sola Scriptura and the

priesthood of all believers—contributed to an ever-widening circle of Bible readers and listeners among the people they served. This collection of essays from the 2016 Wheaton Theology Conference—the 25th anniversary of the conference—brings together the reflections of church historians and theologians on the nature of the Bible as "the people's book." With care and insight, they explore the complex role of the Bible in the Reformation by considering matters of access, readership, and authority, as well as the Bible's place in the worship context, issues of theological interpretation, and the role of Scripture in creating both division and unity within Christianity. On the 500th anniversary of this significant event in the life of the church, these essays point not only to the crucial role of the Bible during the Reformation era but also its ongoing importance as "the people's book" today.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard.

Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist,

associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the
