"Over the past several years research concerning brain health and nutraceuticals has received much attention due to their potential neuroprotective properties and few or no side effects. Nutraceuticals exert copious effects in several biological processes, including antioxidant defenses, cell proliferation and differentiation, gene expression, signal transduction, and safeguarding of mitochondrial integrity. It is very likely that the brain health of an individual is affected by his or her dietary pattern. Intake of a well-nourished diet in the earliest stages of life builds a strong foundation of the brain which helps to maintain brain health in later stages of life. On the other hand, nutritional deficiency can disrupt the structure and function of the human nervous system and increases the risk of brain disorders and early death, affecting all age groups. Although nutraceuticals are popular for health, wellbeing, and illness, the efficacy of common supplements to combat brain disorders is not clearly understood. Bioactive Nutraceuticals for Brain Disorders aims to describe the importance of nutraceutical intervention on different brain disorders to highlight the therapeutic as well as preventive potential"--

This is the first time many of them, including someone as famous (in Austria) as Kaethe Leichter, will see the light of day in English. The work shows how these women negotiated their national and Jewish identities, their intellectual interests and personal lives in the multi-cultural population of Central Europe.

This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies — shamanism, sorcery, enchantment, the occult — is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.
