A Beginners Guide to iOS 9 and iPhone 6s / 6s Plus Blake Pierce The iPad IOS 8 Quick Starter GuideCreateSpace

Girl, Alone (An Ella Dark FBI Suspense Thriller—Book 1) "O'Reilly Media, Inc."

FBI Agent Ella Dark has studied serial killers from the time she could read, devastated by the murder of her own sister. With her photographic memory, she has obtained an encyclopedic knowledge of every serial killer, every victim and every case. But when a serial killer strikes in the swamps of Louisiana, Ella soon comes to learn that the real thing is like nothing she ever expected. " A MASTERPIECE OF THRILLER AND MYSTERY. Blake Pierce did a magnificent job developing characters with a psychological side so well described that we feel inside their minds, follow their fears and cheer for their success. Full of twists, this book will keep you awake until the turn of the last page. " --Books and Movie Reviews, Roberto Mattos (re Once Gone) GIRL, ALONE (An Ella Dark FBI Suspense Thriller—Book 1) is the debut novel in a long-anticipated new series by #1 bestseller and USA Today bestselling author Blake Pierce, whose bestseller Once Gone (a free download) has received over 1,000 five star reviews. FBI Agent Ella Dark, 29, is given her big chance to achieve her life ' s dream: to join the Behavioral Crimes Unit. Ella ' s hidden obsession of gaining an encyclopedic knowledge of serial killers has led to her being singled out for her brilliant mind, and invited to join the big leagues. But face to face with a real murder, a real killer, and a real ticking clock, Ella realizes she can ' t rely on her knowledge. She must learn to trust her instinct, and allow herself to enter the dark canals of a real killer ' s mind. If she gets it wrong, her career is at stake. And so is the next victim ' s life. Will Ella ' s talent be an asset? Or the source of her downfall? A page-turning and harrowing crime thriller featuring a brilliant and tortured FBI agent, the ELLA DARK series is a riveting mystery, packed with suspense, twists and turns, revelations, and driven by a breakneck pace that will keep you flipping pages late into the night. Books #2 -#11 are also available!

OS X El Capitan: The Missing Manual "O'Reilly Media, Inc."

As threats to the security of information pervade the fabric of everyday life, *A Vulnerable System* describes how, even as the demand for information security increases, the needs of society are not being met. The result is that the confidentiality of our personal data, the integrity of our elections, and the stability of foreign relations between countries are increasingly at risk. Andrew J. Stewart convincingly shows that emergency software patches and new security products cannot provide the solution to threats such as computer hacking, viruses, software vulnerabilities, and electronic spying. Profound underlying structural problems must first be understood, confronted, and then addressed. *A Vulnerable System* delivers a long view of the history of information security, beginning with the creation of the first digital computers during the Cold War. From the key institutions of the so-called military industrial complex in the 1950s to Silicon Valley start-ups in the 2020s, the relentless pursuit of new technologies has come at great cost. The absence of knowledge regarding the history of information security has caused the lessons of the past to be forsaken for the novelty of the present, and has led us to be collectively unable to meet the needs of the current day. From the very beginning of the information age, claims of secure systems have been crushed by practical reality. The myriad risks to technology, Stewart reveals, cannot be addressed without first understanding how we arrived at this moment. *A Vulnerable System* is an enlightening and sobering history of a topic that affects crucial aspects of our lives.

iPhone 6 / 6 Plus Quick Starter Guide John F. O'Sullivan Jr.

With El Capitan, Apple brings never-before-seen features to OS X—like a split-screen desktop, improved window controls, and amazing graphics. The new edition of David Pogue's #1 bestselling Mac book shows you how to use key new features such as swiping gestures, Notes, a new Spotlight search system, the Safari pinning feature, and Split View. Missing Manuals creator David Pogue is one of the most widely recognized technology authors in the world. A former New York Times technology columnist, he founded and now produces videos for Yahoo Tech.

The Rough Guide to Apple Watch Cambridge University Press

If you believe some news stories, the latest iPad update (iOS 8) is radically different and you should beware of updating! They're wrong! This book is for both new users of iPad and those upgrading to the latest update. I'll walk you through the changes and show you why updating is nothing to be afraid of. The iPad Mini doesn't come with a handbook / user guide, but don't believe other handbooks that tell you that's why you need to buy their handbook! iPad Mini does have a handbook! There's three ways to get it: 1. Download it from the Apple iBookstore (it's free) 2. Get it online by going to manuals.info.apple.com 3. Get it on your tablet; if you go to your bookmarked pages on Safari, the last bookmark is for the "iPad User Guide." So why do you need this book? This book was written for my parents; people who needed to know as much as possible, as quickly as possible. There are people who want to know every single little detail about the iPad, and you will find that in Apple's comprehensive manual; but if you are like my parents—new to the iPad Mini and just want to learn all the basics in about 30 minutes or an hour, then this guide will help you—people who just want to know how to add their contacts, take photos, and email. It's not for advanced users, although if you are upgrading from the previous Apple iOS (iOS 7) you will probably find it useful. If you have previously purchased my iPhone iOS 7 Quick Starter Guide, know in advance that this is essentially the same guide—if you know how to use an iPhone, then you don't need a quick start guide—you already know how to use an iPad! If you want to know more, then get Apple's free guide. If you are ready to learn, then read on!

iPad All-in-One For Dummies CRC Press

Where end-users once queued up to ask the IT department for permission to buy a new computer or a new version of software, they are now bypassing IT altogether and buying it on their own. From laptops and smartphones to iPads and virtually unlimited software apps, end-users have tasted their freedom and love it. IT will simply never be the same.
