In 1950's Boston, the Irish Republican Army is running guns and killing witnesses. Cal and Dante are committed to stopping them. When a body is discovered at the Charlestown locks--tarred, feathered and shot to death--it appears to be a gangland killing, and is almost immediately dismissed. However, Cal O'Brien's cousin, Boston PD detective Owen Lackey, recognizes the murder style as the typical retribution for IRA informers. Combined with a tip-off about a boat coming into Boston weighed down with stolen guns and ammunition, the body in the locks hints that much more may be at stake than a one-off hit. Serpents in the Cold introduced us to Cal and Dante, whose previous investigation brought them to the highest ranks of Boston's political elite. This time, Cal and Dante descend into the city's shadowy underbelly--a world of packed dance halls, Irish wakes, and funeral parlors. There they discover a terrorist plot that will shake the city to its core and bring them head-to-head not only with Cal's past, but with the IRA Army Council itself.

James Gandolfini: The Real Life of the Man Who Made Tony Soprano is the first biography of the actor who died, in June 2013 at age 51, widely recognized as one of the best—and most defining—actors of his generation. The book is informed by fresh interviews with Sopranos actors, the star's acting teachers and coaches, his childhood friends, buddies from his days as a nightclub bouncer, and Hollywood figures including the directors of his posthumously released films. Bischoff decodes Gandolfini's portrayal of mobsters and bad guys from his breakout role in True Romance with Patricia Arquette to the television series role that made his career, and his portrayals of real people like Leon Panetta in Zero Dark Thirty. Gandolfini's personal life--from his marriages and family interactions to his deep friendships with his fellow cast members--enriches and enlivens this book, and deepens our understanding of the star. James Gandolfini: The Real Life of the Man Who Made Tony Soprano is a fascinating look at Gandolfini's complicated relationship to his roots, to the role that made him wealthy beyond his imagination, and to American notions of masculinity, power and fame. Even as he scaled the heights of his profession, creating a TV character as vivid as Carroll O'Connor's Archie Bunker and as volcanic as Marlon Brando's Stanley Kowalski, Gandolfini remained a reluctant celebrity dedicated more to his craft than to his career. James Gandolfini: The Real Life of the Man Who Made Tony Soprano delivers a textured, multilayered portrait of the on- and off-screen life of a complex, talented man who rose from an Italian immigrant family in northern New Jersey to join the ranks of America's most iconic actors.

When Hank Paulson, the former CEO of Goldman Sachs, was appointed in 2006 to become the nation's next Secretary of the Treasury, he knew that his move from Wall Street to Washington would be daunting and challenging. But Paulson had no idea that a year later, he would find himself at the very epicenter of the world's most cataclysmic financial crisis since the Great Depression. Major institutions including Bear Stearns, Fannie Mae, Freddie Mac, Lehman Brothers, AIG, Merrill Lynch, and Citigroup, among others--all steeped in rich, longstanding tradition--literally teetered at the edge of collapse. Panic ensnared international markets. Worst of all, the credit crisis spread to all parts of the U.S. economy and grew more ominous with each passing day, destroying jobs across America and undermining the financial security millions of families had spent their lifetimes building. This was truly a once-in-a-lifetime economic nightmare. Events no one had thought possible were happening in quick succession, and people all over the globe were terrified that the continuing downward spiral would bring unprecedented chaos. All eyes turned to the United States Treasury Secretary to avert the disaster. This, then, is Hank Paulson's first-person account. From the man who was in the very middle of this perfect economic storm, ON THE BRINK is Paulson's fast-paced retelling of the key decisions that had to be made with lightning speed. Paulson puts the reader in the room for all the intense moments as he addressed urgent market conditions, weighed critical decisions, and debated policy and economic considerations with all the notable players--including the CEOs of top Wall Street firms as well as Ben Bernanke, Timothy Geithner, Sheila Bair, Nancy Pelosi, Barney Frank, presidential candidates Barack Obama and John McCain, and then-President George W. Bush. More than an account about numbers and credit risks gone bad, ON THE BRINK is an extraordinary story about people and politics--all brought together during the world's impending financial Armageddon.
