A 'Macro-regional' Europe in the Making BPP Learning Media
This is a book about the internal dimension of the rule of law in the European Union (EU). The EU is a community based on law which adheres to and promotes a set of common values between the Member States. The preservation of these values (such as legality, legal certainty, prohibition of arbitrariness, respect for fundamental rights) is pivotal to the success of European integration and the well-being of the individuals within it. Yet, the EU rule of law suffers from an imposter syndrome and has been the subject of criticism: ie that it is only part of the EU agenda in order to legitimise sweeping new powers and policies, and that it plays little or no role in promoting a culture of compliance for either deviant EU Institutions or for Member States. This book will examine whether the EU rule of law deserves those criticisms. It will offer an analytical guide to the EU rule of law by conceptualising it and locating it within the sources of EU law. It will then ask whether the EU is based on the rule of law - a question which is answered in the affirmative, but one which has to be considered in the context of compliance and the overall effectiveness of the EU enforcement acquis. It is argued that while the EU means well in its aim to preserve unity in an increasingly diversified Europe, the extent to which it can pave the way to a better world (based on a transnational rule of law concept akin to good governance and improvement of citizens' lives) is dependent on the commitment of all European integration stakeholders to the EU project.

Good Agency Principles Routledge
Apart from MiFID, the Alternative Investment Fund Managers Directive (AIFMD) may be the most important European asset management regulation of the early twenty-first century. In this in-depth analytical and critical discussion of the content and system of the directive, thirty-eight contributing authors – academics, lawyers, consultants, fund supervisors, and fund industry experts – examine the AIFMD from every angle. They cover structure, regulatory history, scope, appointment and authorization of the manager, the requirements for depositaries and prime brokers, rules on delegation, reporting requirements, transitional provisions, and the objectives stipulated in the recitals and other official documents. The challenging implications and contexts they examine include the following: – connection with systemic risk and the financial crisis; - nexus with insurance for negligent conduct; - connection with corporate governance doctrine; - risk management; - transparency; - the cross-border dimension; - liability for lost assets; - impact on alternative investment strategies, and - the nexus with the European Regulation on Long-Term Investment Funds (ELTIFR). Nine country reports, representing most of Europe’s financial centres and fund markets add a national perspective to the discussion of the European regulation. These chapters deal with the potential interactions among the AIFMD and the relevant laws and regulations of Austria, France, Germany, Italy, Luxembourg, Liechtenstein, The Netherlands, Malta and the United Kingdom. The second edition of the book continues to deliver not only the much-needed discussion of the inconsistencies and difficulties when applying the directive, but also provides guidance and potential solutions to the problems it raises. The second edition considers all new developments in the field of alternative investment funds, their managers, depositaries, and prime brokers, including, but not limited to, statements by the European Securities and Markets Authority (ESMA) and national competent authorities on the interpretation of the AIFMD, as well as new European regulation, in particular the PRIIPS Regulation, the ELTIF Regulation, the Regulation on

European Venture Capital Funds (EuVeCaR), the Regulation on European Social Entrepreneurship Funds (EUSEFR), MiFID II, and UCITS V. The book will be warmly welcomed by investors and their counsel, fund managers, depositaries, asset managers, administrators, as well as regulators and academics in the field.
For March 2016 Examination Taylor & Francis
On February 1, 2021, Myanmar’s military coup abruptly ended a decade of a civilian-military hybrid regime – a massive setback for the democratisation process. Citizens from all walks of life took to the streets and protests erupted over the following weeks, and Myanmar became the centre of global attention. This book brings up to date how the story of Myanmar’s experiment with democracy unravelled over the last few years. This second edition: ? Traces the political transition of Myanmar from a military rule of nearly five decades to a short-lived democratic experiment; ? Outlines the factors that contributed to this transition and the circumstances in which it took place; ? Shows how political groups – especially Aung San Suu Kyi’s National League for Democracy (NLD) – and the military worked together and paved the way for democratisation and what led to the failure of the NLD government; ? Examines the 2020 general election and the declaration of national emergency following the NLD landslide electoral win. Bringing together a balance of primary ethnographic fieldwork and nuanced analysis, this book will be of great interest to scholars and researchers of Asian and Southeast Asian Studies, politics and political processes, democratisation process and democratic transitions, international relations and peace and conflict studies, especially those concerned with Myanmar.

This Festschrift, edited by Professors Suzannah Linton, Gerry Simpson and William Schabas, brings together forty-one distinguished experts to honour Professor Roger Stenson Clark’s remarkable contribution to International Law.
Routledge Handbook of National and Regional Ocean Policies Linde Verlag GmbH
Numerous jurisdictions worldwide have augmented their ratification of the New York Convention of 1958 with the UNCITRAL Model Law 1985 (UML), which takes a giant step forward toward global uniformity in legal application and understanding of the arbitration process. This book develops a standard or benchmark for the UML objective of uniformity, using the relevant legislation and case law of Hong Kong, Singapore, and Australia to consider whether a uniform approach to implementation of the UML and its interpretation is being achieved across those jurisdictions. The author’s methodological tools are eminently adaptable to other jurisdictions. Given the importance of the ability to set aside an arbitral award, the body of case law on setting aside and the directly related area of enforcement, the emphasis throughout is on Article 34. In addition, the study considers: - the meaning of uniformity in law and in the context of the UML; - the correct approach to interpretation of the UML pre and post Article 2A; - the interpretational relationship between the UML and the Convention on Contracts for the International Sale of Goods (CISG); - the relationship between the UML and the New York Convention; - the degree of textual uniformity of Article 34 with the three jurisdictions focused on; and - the degree of applied uniformity of Article 34 both in terms of juristic methodology and similarity of results. The author, with more than thirty years of practice in the field of commercial arbitration in Hong Kong, has had access to voluminous cases spanning decades and brings his specialist expertise to the subject. This book considers whether the UML has succeeded in its aim of achieving uniformity. It serves as a guide, both academic and practical, to exploring and adopting the correct approach to the interpretation of the UML as well as to the method of classification of court decisions under the UML. This study is of immeasurable academic and practical value.
Looking in from the Outside Springer
This book offers the analysis of the relationship between the Cape Town Convention and national laws on secured transactions. The first part of the book considers why national implementation is so important in the case of the Cape Town Convention and identifies

how innovative the Convention is as a uniform law instrument. The second part includes chapters on those states that are Parties to the Cape Town Convention, which analyse how the Convention is implemented under the domestic law. The third part includes chapters on those states that are not Parties to the Convention, which compare their national laws and the Convention to find unique features of the Cape Town Convention’s rules. The fourth part discusses the meaning of Protocols on aircraft, railway rolling stock and space assets from the practitioner’s point of view. As a whole, the book offers insights into the new stage of uniform private law and shows the need for further examination of the subject, which will be essential for international and national legislators, academics of comparative and international private law as well as practitioners who are the users of the uniform law regime.
Errorless UPPSC General Studies Prelim Paper 1 - 10 Year-wise Solved Papers (2010 - 19) Disha Publications
Our Study Text is the only P6 text reviewed by the examiner. It covers the entire syllabus at just the right level. There is a chapter towards the end of the text devoted to tax planning and ethics. This chapter helps you to bridge the gap between acquiring the knowledge that you must have at this level and starting to apply that knowledge to the type of questions that you will meet. The question and answer bank will also be vital in helping you develop your application skills. The questions are at a level designed to aid your transition towards the examination standard questions that you will find in BPP Learning Media's Practice and Revision kit.

Going to War? investigates the reasons why countries enter conflicts by considering the depth and complexity of issues surrounding military deployments. Showing how such conditions affect future decisions about the use of force, contributors to this volume study recent experiences with military interventions – such as regional flash points, the global financial crisis, and public weariness – to outline the crucial factors that influence wartime decision-making. Through detailed discussion of threats, capabilities, trends, and the implications of Canada’s and NATO’s military experiences abroad, Going to War? determines that the reasons for warfare have as much to do with domestic concerns as they do with international threats. With essays by defence scientists, established and emerging scholars, and senior military officers from Germany, the United States, and Canada, this volume includes debates on whether the number of military fatalities is being reduced, war’s changing character, and the ways in which the improvised explosive device has and will continue to challenge modern, advanced militaries deployed abroad, especially in Afghanistan and Iraq. A sophisticated exercise in foreign and defence policy analysis, Going to War? provides clear and vivid ideas on how to optimize future Western military interventions.
The Alternative Investment Fund Managers Directive Bloomsbury Publishing
SBI & IBPS Bank PO SOLVED PAPERS consists of past solved papers of SBI, IBPS and other Nationalised Bank Exams from 2010 to 2017. In all there are 40 Question papers from 2010 to 2017 which have been provided year-wise along with detailed solutions. Practicing these questions, aspirants will come to know about the pattern and toughness of the questions asked in the examination. In the end, this book will make the aspirants competent enough to crack the uncertainty of success in the Entrance Examination. The strength of the book lies in the originality of its question papers and Errorless Solutions. The solution of each and every question is provided in detail (step-by-step) so as to provide 100% concept clarity to the students.

Africans Investing in Africa explores intra-African trade and investment by showing how, where and why Africans invest across Africa; to identify the economic, political and social experiences that hinder or stimulate investment; and to highlight examples of pan-African investors.
Theoretical Approaches and Empirical Evidence Disha Publications
Value Added Tax – a thorough analysis Given the ever increasing importance of indirect taxation as a source of revenue for governments, and the increasing complexity of legal framework as well as the increasing number of countries adopting indirect taxation, it is highly important to closely watch how the law is actually applied in practice. The main driving force in this area is undoubtedly the European Court of Justice. This book offers a thorough analysis but also keeps track of the ongoing developments in this area. It analyses selected topics (e.g. abuse and anti-avoidance measures, taxable base and rates, treatment of Public Bodies, exemptions, and deductions) by looking at the most important and recent judgments of the Court of Justice of the European Union. Experts from all over the world, not just from academia but also government representatives and tax practitioners, have given their input and helped to put together what is an informative and worthy read for anyone dealing with indirect taxation on a professional basis.
Essays on International Law, Crime and Justice in Honour of Roger S. Clark Disha Publications
Since its publication in 2003, The Great Deception has taken on the role of the Eurosceptics' bible, with the third edition helping to fuel the debate during the 2016 EU Referendum. This fourth edition celebrates the moment when the UK broke away from the European Union, having been extensively re-edited

to incorporate newly available archive material, and updated to include the tumultuous events of recent years. The Great Deception, therefore, tells for the first time the inside story of the most audacious political project of modern times, from its intellectual beginnings in the 1920s, when the blueprint for the European Union was first conceived by a British civil servant, right up to the point when the UK resumes its path at as an independent sovereign nation after 47 years of membership of the European project in its various guises. Drawing on a wealth of new evidence and existing sources, scarcely an episode of the story does not emerge in startling new light, from the real reasons why de Gaulle kept Britain out in the 1960s to the fall of Mrs Thatcher and the build-up to the referendum campaign which had its roots in the Maastricht Treaty. The book chillingly shows how Britain's politicians were consistently outplayed in a game the rules of which they never understood. It ends by evaluating the post referendum negotiations and asking whether this is the end of an episode or just a new beginning.

Understanding Business and Trade, Sector by Sector Disha Publications

Islamic Banking and Finance (IBF) has become a growing force over the past three decades, with Pakistan being one of the IBF pioneers by converting to an ‘ interest-free ’ banking system in 1985. However, since independence in 1947, there has been continual tension over Pakistan ’ s essential character, between Islamic Minimalists, who favour a Modernist interpretation of Islam, and those who favour an Islamic Maximalist interpretation that sees Pakistan as a model Islamic state. This book analyses the push to Islamize Pakistan and its financial system by Islamic revivalists, following the early 1947 debates in the original Constituent Assembly to the final 2002 ruling on IBF of the Shariat Appellate Bench of the Pakistan Supreme Court. It examines the practice and theory behind contemporary Islamic, "Shariah-compliant", banking. It offers extensive interviews with Pakistani Islamic bankers on the state of their industry and how they see it developing, and provides analysis on how the Islamic banks ’ customers differ from those of conventional ones. Presenting a critical analysis of Pakistan ’ s IBF experience and offering a new insight into Pakistan ’ s banking industry that illustrates broader political and social trends in the country, this book will be of interest to specialists on Islam, South Asia and International Economics.

Errorless 11 Years UPPSC General Studies Prelim Papers 1 & 2 Solved Papers (2010 - 20) 2nd Edition McFarland

This book sets out an integrated systems model which utilizes a public health approach and 'whole of society' philosophy for preventing and responding to child sexual abuse. It guides those engaged in policy, practice and planning concerning gender based violence and child abuse towards a more systemic approach to tackling these problems. Promise and Performance Routledge Handbook of National and Regional Ocean Policies

‘ If you want to understand Nigeria ’ s history in one succinct go, this is a very good choice. ’ Noo Saro-Wiwa Known as the African Giant, Nigeria's story is complex and often contradictory. How, despite the ravages of colonialism, civil war, ongoing economic disappointment and most recently the Boko Haram insurgency, has the country managed to stay together for a hundred years? Why, despite an abundance of oil, mineral and agricultural wealth, have so many of its people remained in poverty? These are the key questions explored by Richard Bourne in this remarkable and wide-ranging account of Nigeria's history, from its creation in 1914 to the historic 2015 elections and beyond. Featuring a wealth of original research and interviews, this is an essential insight into the shaping of a country where, despite the seemingly dashed optimism that was raised at independence, there still remains hope 'the Nigeria project' may still succeed.

Africans Investing in Africa Springer

While policymakers in the world reiterate the importance of protecting voice diversity, traditional media conglomerates and new social media giants make their task increasingly challenging. This book assesses the current state of policy-making on media plurality and explores novel policy ideas for funding, regulatory and structural interventions.

The Great Deception Springer

This collection examines how the EU is seen in the two regions that are at the centre of its geopolitical interest. Focusing on Eastern Europe and sub-Saharan Africa, it provides a critical assessment of how their external perceptions relate to EU policy towards them.
