and may not include any media,

with the bound book. For one-
semester courses in A&P Lab. A Brief,
Student-Friendly Lab Manual for One-
Semester A&P – Now in Full Color
Developed especially for a fast-paced,
one-semester A&P course, Elaine

Marieb and Pamela Jackson's Essentials
of Human Anatomy and Physiology
Laboratory Manual, 7th Edition
provides 27 full-color, hands-on
laboratory exercises, along with a built-
in Histology Atlas. The Lab Manual can
accompany any one-semester A&P
text, but it is most effectively paired
with Marieb and Keller's Essentials of
Human Anatomy & Physiology, 12th
Edition. Each lab exercise consists of a
variety of easy-to-follow activities, all
supported by a checklist of materials, a
Pre-Lab Quiz, background information,
learning objectives, and tear-out
review sheets. The black and white
figures in previous editions are now in
full-color, and the 7th Edition further
expands on its student-friendly writing

style with updated terminology and review questions, streamlined content presented in tables, and a new, more intuitive design.
