Haskell cheerfully pleads guilty. Marilyn Monroe, Murder Cover-up Crown Archetype New York Times bestselling biographer Barbara Leaming has written a riveting political drama of the last ten years of Winston Churchill's public life. In Churchill Defiant, Leaming tells the tumultuous behind-the-scenes story of Churchill's refusal to retire after his 1945 electoral defeat, and the bare-

knuckled political and personal battles that ensued. Her ground-breaking biography Jack Kennedy: The Education of a Statesman, was the first to detail Churchill's extraordinary influence on Kennedy's thinking. Now in Churchill Defiant, Leaming gives us a vivid and compelling narrative that sheds fresh light on both the human dimension of Winston Churchill and on the struggles and achievements of his final years.

At last, in Leaming's eloquent account, we understand the tangled web of personal relationships and rivalries, the intricate interplay of past and present, the looming sense of history that makes the story of these years as fascinating as anything in the extraordinary century-long saga of Winston Churchill's life. has died of an overdose', a man's voice says dully. And when the stunned policeman asked 'What?', the same voice struggled to repeat 'Marilyn Monroe has died. She has committed suicide.' If life were scripted like the movies, this extraordinary phone call would have been made by the most important man in Marilyn Monroe's life – Dr Ralph Greenson, her final psychoanalyst. During her last years Marilyn had come to rely on Greenson more and more. She met with him almost every day. He was her analyst, her friend and her

confessor. He was the last person to see her alive, and the first to see her dead. In this highly acclaimed novel, Marilyn's last years – and her last sessions on Dr Greenson's couch – are brilliantly recreated. This is the story of the world's most famous and elusive actress, and the world she inhabited, surrounded by such figures as Arthur Miller, Truman Capote and John Huston. It is a remarkable piece of storytelling that illuminates one of the greatest icons of the twentieth century. *If this was Happiness* Oxford University

Imagine sneaking away to spend seven days with the most famous woman in the world... In 1956, fresh from Oxford University, twenty-three-year-old Colin Clark began work as a lowly assistant on the set of *The Prince and the Showgirl*, the film that united Sir Laurence Olivier with Marilyn

Monroe. The blonde bombshell and the legendary actor were ill suited from the start. Monroe, on honeymoon with her new husband, the celebrated playwright Arthur Miller, was insecure, often late, and heavily medicated on pills. Olivier, obsessively punctual, had no patience for Monroe and the production became chaotic. Clark recorded it all in two unforgettable diaries—the first a charming fly-on-the-wall account of life as a gofer on the set; the other a heartfelt, intimate, and astonishing remembrance of the week Clark spent escorting Monroe around England, earning the trust and affection of one of the most desirable women in the world. Published together here for the first time, the books are the basis for the upcoming major motion picture *My Week with Marilyn* starring Michelle Williams, Judi Dench, and Kenneth Branagh. The Many Lives of Marilyn Monroe reviews the unreliable and unverifiable-but highly significant-stories that have framed the greatest Hollywood legend. All the while, cultural critic Sarah Churchwell reveals us to ourselves: our conflicted views on women, our

tormented sexual attitudes, our ambivalence about success, our fascination with self-destruction. In incisive and passionate prose, Churchwell uncovers the shame, belittlement, and anxiety that we bring to the story of a woman we supposedly adore. In the process, she rescues a Marilyn Monroe who is far more complicated
