(MCRP) 3-30.7, Commander's Tactical Handbook, contains reference material frequently used to organize, plan, and conduct Marine ground combat operations. Its intent is to assist small unit leaders functioning at the company level and below, but it also serves as a field reference guide for all Marine leaders. Leaders of combat support and combat service support organizations should

familiarize themselves with the contents of this publication to understand the operational support requirements discussed. The importance of this manual cannot be overstated because it serves as the basic compilation of important tactical information presented in bound format to better facilitate its use. It is based on information contained in numerous Marine Corps doctrinal

publications. Why buy a book you can download for free? We print this book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. We look over each document carefully and replace poor quality images by going back to the original source

document. We proof each document to make sure it's all there - including all changes. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the latest version from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these large documents as a service so you don't have to. The books are compact, tightly-bound, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. www.usgovpub.com If you like the service we provide, please leave positive review on Amazon.com. *The U.S. Naval Institute on Mentorship* Createspace Independent Pub This book is for anyone looking to enlist in the Marine Corps, those who have been in the Marine Corps or those who want to know what it is like to go through Marine Corps boot camp. It will answer the questions that you may not get from your recruiters and tell you first hand the secret to surviving Marine Corps boot camp. Litelevel user's guide for version 1.1 Stackpole Books

The User's Guide to Marine Corps Values is to be used as a tool to help ensure that the values of the Corps continue to be reinforced and sustained in all Marines after being formally instilled in entry level training. This document is a compendium of discussion guides developed and used by Marine Corps formal schools. The guides are part of the formal inculcation of values in young Marines, enlisted and officer, during the entry level training process. This guide is designed to be used as a departure point for discussing the topics as a continuation of the process of sustaining

values within the Marine Corps. The User's Guide also serves as a resource for leaders to understand the "talk" and the "walk" expected of them as leaders. New graduates of the Recruit Depots and The Basic School have been exposed to these lessons and expect to arrive at their first duty assignments and MOS schools to find these principles and standards exhibited in the Marines they encounter. Leaders must remember that as long as there is but one Marine junior to them, they are honor bound to uphold the customs and traditions of the Corps and to always

"walk the walk and talk the talk." We are the "parents" and "older siblings" of the future leaders of the Marine Corps. America is depending on us to ensure the Marines of tomorrow are ready and worthy of the challenges of this obligation. Teaching, reinforcement, and sustainment of these lessons can take place in the field, garrison, or formal school setting. Instructional methodology and media may vary depending on the environment and location of the instruction. However, environment should not be considered an obstacle to the conduct or quality of

the instruction. This guide has been developed as a generic, universal training tool that is applicable to all Marines regardless of grade. Discussion leaders should include personal experiences that contribute to the development of the particular value or leadership lesson being discussed.

Despite the constant evolution of ever-more-modern weapons systems the 12-gauge combat shotgun remains a favorite of infantry and special forces units around the world, particularly valued for its effectiveness in close-quarters battle. Since 1999 the United States Marine Corps has employed the semi-automatic Benelli M1014 (also known as the M4 Super 90) as its shotgun of choice. This durable and reliable weapon enables the Marine to deliver a devastatingly high rate of accurate fire, and replaces various pump-action predecessors. Produced by the Marine Corps and written from hands-on experience in the field, this

Marine Corps Manual, 1940
Routledge
The United States Marine Corps has a unique culture that ensures comradery, exacting standards, and readiness to be the first to every fight. Yet even in a group that is known for innovation, culture can push leaders to fall back on ingrained preferences.
Jeannie L. Johnson takes a sympathetic but critical look at the Marine Corps' s

long experience with counterinsurgency warfare. Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error--but also a story of cultural collisions. The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources, including Marine oral histories, and interviews with Marines. Johnson

explores what makes this branch of the military distinct: their identity, norms, values, and perceptual lens. She then traces the history of the Marines ' counterinsurgency experience from the expeditionary missions of the early twentieth century, through the Vietnam War, and finally to the Iraq War. Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior.

Johnson shows that even a service as self-aware and dedicated to innovation as the Marine Corps is constrained in the lessons-learned process by its own internal predispositions, by the wider US military culture, and by national preferences. Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture. This highly readable book reminds us of Sun Tzu ' s wisdom that to be successful in war, it is important to

know thyself as well as the enemy. This is a must-read for anyone interested in the Marines Corps, counterinsurgency warfare, military innovation, or strategic culture. Publications Library Management System, Version 3 Users Guide CreateSpace When it comes to thinking about war and warriors, first there was Achilles, and then the rest followed. The choice of the term warrior is an important one for this discussion. While there has been extensive

discussion on what counts as military professionalism, that is what makes a soldier, sailor or other military personnel a professional, the warrior archetype (varied for the various roles and service branches) still holds sway in the military self-conception, rooted as it is in the more existential notions of war, honor and meaning. In this volume, Kaurin uses Achilles as a touch stone for discussing the warrior, military ethics and the aspects of contemporary warfare that go by

the name of 'asymmetrical war.' The title of the book cuts two ways-Achilles as a warrior archetype to help us think through the moral implications and challenges posed by asymmetrical warfare, but also as an archetype of our adversaries to help us think about asymmetric opponents. Marine Battle Skills Training (MBST) Handbook CSIS Naval service is an apprenticed profession. Experienced sailors mentor their younger shipmates, passing

down their hard-earned knowledge and skills, and working side-by-side to develop the next generation of sailors. This Wheel Book includes some of the best writing on mentoring in the sea services from the past 100 years, offering guidance to sailors who are looking to find a mentor, providing advice to junior officers who are trying to figure out how to mentor their sailors while simultaneously developing their own capabilities, and providing advice and examples for

senior leaders who are seeking to encourage mentoring in their command without pushing too hard. Marines Createspace Independent Pub Rifle Marksmanship, the official U.S. Marines reference publication 3-01A, is the complete guide to becoming proficient on the Corps' service rifles: the M16A4 and the M4 carbine. WARRANT OFFICER BASIC COURSE (WOBC) 1-18 INFORMATION Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of

Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer (WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section

1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE

SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT: Train and educate newly appointed warrant officers in the high standards

of professional knowledge esprit-de-corps, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps ' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed

to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a “check in the block.” It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model. The Marine Semi-Auto Combat Shotgun Technical Manual: The Complete Benelli M1014/M4 Operations, Maintenance & Repair Guide - Full Size Edition (TM 106 First introduced in 1979, the Handbook for Marine NCOs is recognized as the essential reference guide of the NCO corps. Marine NCOs of all grades rely on its reliability as the standard reference guide for the military professional. While this thoroughly revised 5th edition reflects all of the many changes in the organization of the corps since the publication of the previous edition in 1995, it continues to primarily focused on helping Marine NCOs "make the

most of their chevrons and to get ahead in the corps." It is the only book that provides a practical and easy-to-use reference guide to all of the many official military regulations and instructions that an NCO needs to know. It offers sound advice and up-to-date information on military matters that assists the new NCO to easily acquire a firm understanding of all of the different specialties and fields in the USMC and serves as a quick refresher for even the most seasoned NCO. This revised and updated edition will remain the standard reference

guide for Marine NCOs for years to come. **Marine Corps Boot Camp Survival Guide: Everything You Need to Know to Prepare for (and Live Through) Marine Corps Boot Camp** The Improved Performance Research Integration Tool (IMPRINT) was developed by Alion Science and Technology for the Army Research Laboratory (ARL) Human Research and Engineering Directorate (HRED). This manual describes

the professional version of IMPRINT, named IMPRINT Pro. IMPRINT Pro is government owned and consists of a set of automated aids to assist analysts in conducting human performance analyses. IMPRINT Pro provides the means for estimating manpower, personnel, and training (MPT) requirements and constraints for new weapon systems very early in the acquisition process. By allowing the incorporation of robust task analyses and

associated data into a dynamic simulation environment, IMPRINT enables analysts to quantitatively predict the impact of human systems integration (HSI) variables (manpower, personnel, training, and human factors based interface design) against total system performance.
