Unlike any other Italian manufacturing sector, Italy's recreational boating industry has recorded skyrocketing growth rates for years, ultimately achieving a world leadership position in the construction of motor yachts. But now the global crisis has imposed profound structural changes and significant evolutionary dynamics on the industry's competitive environment. The book aims to answer some of

the industry's most hotly-debated issues, including: - What are the key features that led to this success? - What business models characterize Italian shipyards? - Which elements distinguish the Italian industry from its foreign competitors? Which future challenges must the industry overcome in order to maintain its leadership position?

Is this an entertaining book? The Practical Mariner 's Book of

Knowledge is either the most useful boating book ever designed to entertain or the most entertaining book ever designed to be useful. In its alphabetical organization that juxtaposes wildly disparate entries, you can read about the derivation of fiberglass hulls where you turned to for recommended thicknesses of fiberglass hulls. In between the whimsy, however, is the essence of centuries of seafaring experience distilled into a concise reference for sailors and powerboaters. There may be no substitute for a lifetime of experience, but this book is the next best thing. It should be kept at the navigation station and on every boat. Inside you will find information that is otherwise scattered through dozens of volumes. If you can't find what you want quickly from the table of contents, there's an exhaustive subject index. If you need more precise data than a rule of thumb can provide, you may very well find it among the 16 appendix tables, which are also indexed. You'll find rules of thumb for: Changing a boat's name Towing the safest way Burial at sea Preventing wood rot Hull thickness Anchoring rights Jib size Curing mast vibration Time taken for boat tasks Survival rations And a lot more: open it up and get lost in the sage advice and witty wisdom that will make you long for the sea.
