Finalist for the Pulitzer Prize • Winner of the Council on Foreign Relations Arthur Ross Book Award • One of the New York Times' Ten Best Books of the Year "Impressive . . . Mr. Judt writes with enormous authority." —The Wall Street Journal "Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history." —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy. Judt's book, Ill Fares the Land, republished in 2021 featuring a new preface by bestselling author of Between the World and Me and The Water Dancer, Ta-Nehisi Coates.

A Companion to African Philosophy University of Chicago Press

In the period dominated by the triumphs of scientific rationalism, how do we account for the extraordinary success of such occult movements as astrology or the revival of witchcraft?

From his perspective as a historian of religions, the eminent scholar Mircea Eliade shows that such popular trends develop from archaic roots and periodically resurface in certain myths, symbols, and rituals. In six lucid essays collected for this volume, Eliade reveals the profound religious significance that lies at the heart of many contemporary cultural vogues. Since all of the essays except the last were originally delivered as lectures, their introductory character and lively oral style make them particularly accessible to the intelligent nonspecialist. Rather than a popularization, Occultism, Witchcraft, and Cultural Fashions is the fulfillment of Eliade's conviction that the history of religions should be read by the widest possible audience.

The second edition of the acclaimed Routledge Companion to Aesthetics contains fifty-four chapters written by leading international scholars covering all aspects of aesthetics. This companion opens with an historical overview of aesthetics including entries on Plato, Aristotle, Kant, Nietzsche, Heidegger, Sibley and Derrida. The second part covers the central concepts and theories needed for a comprehensive understanding of aesthetics including the definitions of art, taste, value of art, beauty, imagination, fiction, narrative, metaphor and pictorial representation. Part three is devoted to the topics that have attracted much contemporary interest in aesthetics including art and ethics, environmental aesthetics and feminist aesthetics. The final part addresses the individual arts of music, photography, film, literature, theatre, dance, architecture and sculpture. With nine new and revised entries, and up to date suggestions for further reading, The Routledge Companion to Aesthetics is essential for anyone interested in aesthetics, art, literature, and visual studies.

The Image of the Future New York Review of Books

Since its founding by Jacques Waardenburg in 1971, Religion and Reason has been a leading forum for contributions on theories, theoretical issues and agendas related to the phenomenon and the study of religion. Topics include (among others) category formation, comparison, ethnophilosophy, hermeneutics, methodology, myth, phenomenology, philosophy of science, scientific atheism, structuralism, and theories of religion. From time to time the series publishes volumes that map the state of the art and the history of the discipline.

Reflections of an American Composer Walter de Gruyter GmbH & Co KG

An NYRB Classics Original Simon Leys is a Renaissance man for the era of globalization. A distinguished scholar of classical Chinese art and literature and one of the first Westerners to recognize the appalling toll of Mao's Cultural Revolution, Leys also writes with unfailing intelligence, seriousness, and bite about European art, literature, history, and politics and is an unflinching observer of the way we live now. The Hall of Uselessness is the most extensive collection of Leys's essays to be published to date. In it, he addresses subjects ranging from the Chinese attitude to the past to the mysteries of Belgium and Belgitude; offers portraits of André Gide and Zhou Enlai; takes on Roland Barthes and Christopher Hitchens; broods on the Cambodian genocide; reflects on the spell of the sea; and writes with keen appreciation about writers as different as Victor Hugo, Evelyn Waugh, and Georges Simenon. Throughout, The Hall of Uselessness is marked with the deep knowledge, skeptical

intelligence, and passionate conviction that have made Simon Leys one of the most powerful essayists of our time.

The Governance of Globalisation Harvard University Press

Despite its key role in the intellectual shaping of state socialism, Communist ideas are often dismissed as mere propaganda or as a rhetorical exercise aimed at advancing socialist intellectuals on their way to power. By drawing attention to unknown and unexplored areas, trends and ways of thinking under socialism, the volume examines Eastern Europe and Russian histories of intellectual movements inspired - negatively as well as positively - by Communist arguments and dogmas. Through an interdisciplinary dialogue, the collection demonstrates how various bodies of theoretical knowledge (philosophical, social, political, aesthetic, even theological) were used not only to justify dominant political views, but also to frame oppositional and unofficial discourses and practices. The examination of the underlying structures of Communism as an intellectual project provides convincing evidence for questioning a dominant approach that routinely frames the post-Communist intellectual development as a 'revival' or, at least, as a 'return' of the repressed intellectual traditions. As the book shows, the logic of a radical break, suggested by this approach, is in contradiction with historical evidence: a significant number of philosophical, theoretical and ideological debates in post-Communist world are in fact the logical continuation of intellectual conversations and confrontations initiated long before 1989.

The Different Modes of Existence Routledge

Convinced that all aspects of modern culture have been affected by avant-garde art, Poggioli explores the relationship between the avant-garde and civilization. Historical parallels and modern examples from all the arts are used to show how the avant-garde is both symptom and cause of many major extra-aesthetic trends of our time, and that the contemporary avant-garde is the sole and authentic one.

Jacques Maritain Penguin

Svetlana Boym writes a new genealogy of modernity, moving beyond older debates between modernism and postmodernism to focus on the intersection of art, architecture, technology, and philosophy in the early twenty-first century. Drawing on theories of Georg Simmel, Henri Bergson, Aby Warburg, and Jacques Derrida, Boym presents the off-modern as an eccentric, self-questioning, anti-authoritarian perspective with roots in the Russian avant-garde, now developed in surprising ways by contemporary artists, architects, and curators around the world. She illustrates the off-modern in discussions of (and

with) figures as diverse as architect Rem Koolhaas, Albanian artist-turned-mayor Edi Rama, an art collective in Delhi, and the creator of the Museum of Jurassic Technology in Los Angeles. Both a manifesto and a memoir, *The Off-Modern* often returns to themes of travel and immigration, exploring issues of diasporic intimacy and productive estrangement amid nostalgic landscapes of urban ruins.

Oeuvres complètes Solomon R Guggenheim Museum

In this engrossing collection of essays, distinguished composer, theorist, journalist, and educator Arthur Berger invites us into the vibrant and ever-changing American music scene that has been his home for most of the twentieth century. Witty, urbane, and always entertaining, Berger describes the music scene in New York and Boston since the 1930s, discussing the heady days when he was a member of a tight-knit circle of avant-garde young composers mentored by Aaron Copland as well as his participation in a group at Harvard University dedicated to Stravinsky. As Virgil Thomson's associate on the New York Herald Tribune and founding editor of the prestigious *Perspectives of New Music*, Berger became one of the preeminent observers and critics of American music. His reflections on the role of music in contemporary life, his journalism career, and how changes in academia influence the composition and teaching of music offer a unique perspective informed by Berger's abundant intelligence and experience.

At eighty-five, Jacques Maritain, the most distinguished Catholic philosopher of the twentieth century, has written what he offers as his last book, and it turns out to be a shocker. The "peasant," as Maritain calls himself in the title, is a man who calls a spade a spade; and a storm of controversy descended immediately on the book's publication in France, as both Right and Left reeled from the force of Maritain's criticism. The *Peasant of the Garonne* is a sharp attack on the "new philosophy," hoping to cool off the fever for change that Maritain believes is imperiling the church's traditional spirituality and even the substance of doctrine. There is sardonic humor in his treatment of Teilhardians, phenomenologists, existentialists, new-style biblical critics, and clerical Freudians, but Maritain is deeply serious in warning that their capitulation to fashionable trends represents a kind of "kneeling before the world."

In the Shadow of Yalta Pierre Téqui (Editions)

It is a major challenge to write the history of post-WWII architectural theory without boiling it down to a few defining paradigms. An impressive anthologising effort during the 1990s charted architectural theory mostly via the various theoretical frameworks employed, such as critical theory, critical regionalism, deconstructivism, and pragmatism. Yet the intellectual contours of what constitutes architectural theory have been constantly in flux. It is therefore paramount to ask what kind of knowledge has become important in the recent history of architectural theory and how the resulting figure of knowledge sets the conditions for the actual arguments made. The contributions in this volume focus on institutional, geographical, rhetorical, and other conditioning factors. They thus screen the unspoken rules of engagement that postwar architectural theory ascribed to.
