Maritime Economics by Martin Stopford - Goodreads

Maritime Economics second edition Over the last fifty years the shipping industry has changed the shape of the world economy. Through the twin revolutions of mechanized bulk transport and containerization, it has been spectacularly successful in reducing costs and opening up the global market. Despite these advances, the shipping business ...

[Maritime Economics 3rd Edition 2009 by Martin Stopford.pdf](#)

A new Third Edition of this book has recently been published that updates most of the information contained in the 2nd ed. Although about \$20 more expensive, this updated information, along with other improvements (i.e., expanded chapters, very detailed cost-breakdown information on a variety of different types of vessels, etc.- for more details see my review of the third edition) make this extra \$20 a worth while investment.
