Twelve-time New York Times bestselling author Mark Hyman, MD, presents his unique Pegan diet—including meal plans, recipes, and shopping lists. For decades, the diet wars have pitted advocates for the low-carb, high-fat paleo diet against advocates of the exclusively plant-based vegan diet and dozens of other diets leaving most of us bewildered and confused. For those of us on the sidelines, trying to figure out which approach

is best has been nearly impossible—both extreme diets have unique benefits and drawbacks. But how can it be, we've asked desperately, that our only options are bacon and butter three times a day or endless kale salads? How do we eat to reverse disease, optimal health, longevity and performance. How do we eat to reverse climate change? There must be a better way! Fortunately, there is. With The Pegan Diet's food-is-medicine approach, Mark Hyman explains how to take the best aspects of the paleo diet (good fats,

limited refined carbs, limited sugar) and combine them with the vegan diet (lots and lots of fresh, healthy veggies) to create a delicious diet that is not only good for your brain and your body, but also good for the planet. Featuring thirty recipes and plenty of infographics illustrating the concepts, The Pegan Diet offers a balanced and easy-to-follow approach to eating that will help you get, and stay, fit, healthy, focused, and happy—for life. Every day we hear about a new ingredient that is good or bad, a new diet that promises everything. But the secret to becoming healthier, losing weight, living an energetic life, and healing the planet has nothing to do with counting calories or feeling deprived—the key is re learning how to eat

Almost 70 percent of Americans are overweight, and one in two has diabetes, which is the metabolic features of a pre-diabetic obese person. #2

The answer is simple: addiction. We are a nation of food addicts. #3 The science of food addiction is becoming more and more clear, and a study published in the American Journal of Clinical Nutrition proved that higher-sugar, higher-glycemic foods are addictive in the same way as cocaine and heroin. #4 Food addiction is real, and it is the root cause of why so many people are overweight and sick. Ultrametabolism Harlequin Alzheimer's disease is the #1 most terrifying disease today. Despite billions of dollars of research, there are no significant cures for dementia or Alzheimer's (the most common form of memory loss), which accounts for up to 70 percent of all dementia. Almost six million

Americans have been diagnosed with Alzheimer's; with an annual cost of dementia care and research in the United States of \$215 billion, more than is spent on cancer or heart disease. In *The Better Brain Solution*, Dr. Steven Masley writes of the two urgent epidemics we are facing now--escalating rates of disabling memory loss and rapidly increasing rates of diabetes and pre-diabetes--and yet both conditions are largely preventable. Most people today understand the effect that elevated blood sugar has on their cardiovascular

health, but few understand that insulin resistance is significantly damaging to the brain. In the *The Better Brain Solution*, Masley offers a program that, in the fight against diabetes, memory loss, and cognitive decline, can reverse insulin resistance, enhance cognitive performance, and stop cognitive decline before it is too late. Masley gives the reader the tools he has developed for his own private patients to prevent and reverse this metabolic syndrome and to achieve normal blood sugar levels (below 95 mg/dL). He explores the impact of

insulin resistance on the brain and the heart/brain/diabetes connection, explaining how cognitive function and memory work and he discusses the risk factors for memory loss. The *Better Brain Solution* offers the reader a comprehensive plan for achieving optimal brain health, providing information on brain-boosting foods and supplements as well as providing a practical way to assess cognitive function. With 50 recipes for foods that improve brain and body and that are easy to prepare.
