The charming and poignant story of the relationship between a philosophy professor and his pet wolf. Mark Rowlands was a young philosophy professor, rootless and searching for life's greater meaning. Shortly after arriving at the University of Alabama, he noticed a classified ad in the local

wolf cubs for sale and decided he had to investigate, if only out of curiosity. It was love at first sight, and the bond that grew between philosopher and wolf reaffirms for us the incredible relationships that exist between man and animal. Mark welcomed his new companion, Brenin, into his home. More than just an exotic pet, Brenin exerted an immense influence on Rowlands both as a person, and, strangely enough, as a philosopher, leading him to reevaluate his attitude toward love, happiness, nature, death, and the true meaning of companionship.

rogue wolves on my heels, and the only one who can protect me is Jaxson Laurent--the Chicago Alpha. He suspects I'm special and can't take his eyes off me, but the problem is--he's the sworn enemy of my family. Every time we get close it feels like something is going to rip out of my soul, but the heat between us is irresistible. With danger around every corner and wolves howling in the night, I need to master my magic and stand my ground, or I'll be dead before the next moon rises. An action-packed urban fantasy, *Wolf Marked* features a kick-ass heroine, a dangerous alpha hero, and a steamy slow-burn, enemies-to-lovers romance. Prepare to be drawn

into a mysterious and magical world, full of demons, shifters, and sorcerers. [Witch Wolf](#) Crescent Moon Studios, Inc. Visions of feral eyes haunt the waking hours of Alexandra Shaw. They both scare and intrigue her, and after one particularly strong dream she heads out to find where these visions are leading her. Her destination turns out to be Greylock Lodge, a supposedly

abandoned chalet up in the mountains. Getting there proves to be the hard part, but she's not the only one trying to reach the elusive lodge. A tense crowd waits in a small clearing, and among them is a handsome man by the name of Christopher Dayton. The eyes have called them all there, but they all have their different reasons for coming. The crowd is presented with a challenge by two mysterious figures, people who can change into wolves and back again. Their goal, if they can make it, is to reach Greylock Manor at the far end of the forested

valley. Anyone who can't will lose not only the game, but their memories. Maybe even their lives. Alex finds Chris at her side as she sets off into the dark, spooky woods where unknown dangers await them. The 'game' soon gets all too real, but Alex is determined to reach the end, no matter what. Chris is likewise set on winning, but Alex can't help but notice the enticingly heated gazes he sends her way. Along the way Alex discovers that even if she doesn't reach the end, she's perhaps found something more important: love.
