Only 200 people have ever been in Christopher Whitcomb's elite branch of the F.B.I. The Hostage Rescue Team is its most highly trained and specialized squadron -- equivalent to the Navy's Seals and the Army's Delta Force -- charged with terrorist capture, hostage situations, and other large-scale emergencies in the U.S. and around the world. Whitcomb is the first HRT member ever to write about his experience. With breathtaking immediacy, Whitcomb describes the brutal training, the weapons and tactics, and the unbreakable camaraderie of the HRT. In short order, after joining HRT in 1991, Whitcomb was sent on missions to Ruby Ridge and Waco, and his frank assessment of those missions is must reading for anyone interested in modern law enforcement. Only rarely does a writer this accomplished have a life this dramatic. Cold Zero is a book of rare action and emotion, and one that introduces a remarkable new writer to the world.

"You may think you know this story, but until you read this book, you don't." —T. J. English, New York Times bestselling author "Readable. Fascinating. Convincing." —Kirkus Reviews 10 years after the Boston Marathon Bombing, this thrilling and meticulously researched account is an eye opener for anyone with lingering questions about one of the most notorious acts of terrorism since 9/11 Investigative journalist Michele R. McPhee reports the details and delivers the facts, piecing together the puzzle so readers are able to come to their own conclusions. This page-turning narrative goes a long way toward answering questions that still linger about the notorious Boston Marathon bombing, such as: Where were the bombs made? And what had been Tamerlan Tsarnaev's relationship to the FBI? Mayhem casts a spotlight on the U.S. Government's relationship with the older Tsarnaev brother as his younger brother, Dzhokhar, will continue his efforts to have his death sentence commuted in October, just days after the Boston Marathon will be run for the first time since 2019. The federal government may be forced to confirm a longstanding relationship with Tamerlan and its decision to shield him from investigation for the Sept. 11, 2011 ISIS-style triple murder of three friends. As they infamously did with Whitey Bulger, federal agents appear to have protected Tamerlan because of his value as a paid informant. Mayhem has been substantially revised and updated in this first paperback edition.

On November 26, 2005 Christian Peacemaker Teams (CPT) members Tom Fox and Jim Loney along with delegation members Norman Kember and Harmeet Sooden were kidnapped in Iraq. Tom Fox was killed on March 9, 2006. Jim, Norman and Harmeet were freed two weeks later on March 23 after 118 days of captivity. The kidnapping of these four men was like a rock thrown into a pond. This book describes the ripples on the water, the impact and results of that rock. Ripples in the lives of CPT teams and the communities in which they work. Ripples among families and friends of those taken. Ripples across the world in faith communities, prisons, in the media and among their audiences, and in the lives of the four men. Dozens of Muslim leaders who knew CPT's peacemaking work courageously called for the release of the CPT delegation. Christian leaders in turn called for justice for the 14,000 Iraqis held by Multinational Forces in Iraq without charges or access to their families.

Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare missions.
