Married Life in the Middle Ages, 900-1300 Knopf Books for Young Readers

NEW YORK TIMES BESTSELLER • A powerful memoir of a love that leads two people to find a courageous way to part—and a woman ' s struggle to go forward in the face of loss—that “ enriches the reader ' s life with urgency and gratitude ” (The Washington Post) “ A pleasure to read . . . Rarely has a memoir about death been so full of life. . . . Bloom has a talent for mixing the prosaic and profound, the slapstick and the serious. ” —USA Today Amy Bloom began to notice changes in her husband, Brian: He retired early from a new job he loved; he withdrew from close friendships; he talked mostly about the past. Suddenly, it seemed there was a glass wall between them, and their long walks and talks stopped. Their world was altered forever when an MRI confirmed what they could no longer ignore: Brian had Alzheimer ' s disease. Forced to confront the truth of the diagnosis and its impact on the future he had envisioned, Brian was determined to die on his feet, not live on his knees. Supporting each other in their last journey together, Brian and Amy made the unimaginably difficult and painful decision to go to Dignitas, an organization based in Switzerland that empowers a person to end their own life with dignity and peace. In this heartbreaking and surprising memoir, Bloom sheds light on a part of life we so often shy away from discussing—its ending. Written in Bloom ' s captivating, insightful voice and with her trademark wit and candor, In Love is an unforgettable portrait of a beautiful marriage, and a boundary-defying love.

A Recommended Read from: Good Morning America • Good Housekeeping • Esquire • Shondaland • Atlanta Journal-Constitution • The Week • Lit Hub • Publishers Weekly An illuminating, poignant, and savagely funny examination of modern marriage from Ask Polly advice columnist Heather Havrilesky If falling in love is the peak of human experience, then marriage is the slow descent down that mountain, on a trail built from conflict, compromise, and nagging doubts. Considering the limited economic advantages to marriage, the deluge of other mate options a swipe away, and the fact that almost half of all marriages in the United States end in divorce anyway, why do so many of us still chain ourselves to one human being for life? In Foreverland, Heather Havrilesky illustrates the delights, aggravations, and sublime calamities of her marriage over the span of fifteen years, charting an unpredictable course from meeting her one true love to slowly learning just how much energy is required to keep that love aflame. This refreshingly honest portrait of a marriage reveals that our relationships are not simply “ happy ” or “ unhappy, ” but something much murkier—at once unsavory, taxing, and deeply satisfying. With tales of fumbled proposals, harrowing suburban migrations, external temptations, and the bewildering insults of growing older, Foreverland is a work of rare candor and insight. Havrilesky

traces a path from daydreaming about forever for the first time to understanding what a tedious, glorious drag forever can be.

This book was written by me some years ago, when a prominent publisher from New Delhi gave me this specific topic to write on. However, I did not complete the writing to my own satisfaction. Even today, a huge part of what I had planned to write still remains inside my head. When I recently went through this writing, I found that it is having a lot of readable points. So, I am publishing this book in an as-it-is form. Since it was written for another publisher, with a specific aim, the writing style is slightly different from my current writing style. Moreover, it has a tone of an instructor imparting learning. I must admit that I cannot don the mantle of an instructor or coach in the subject matter that I have dealt with. However a lot of points have been discussed, which the reader may find quite interesting to ponder on.

His Only Wife Simon and Schuster

Married Life in the Middle Ages, 900-1300 contains an analysis of the experience of married life by men and women in Christian medieval Europe, c. 900-1300. The study focusses on the social and emotional life of the married couple rather than on the institutional history of marriage, breaking it into three parts: Getting Married - the process of getting married and wedding celebrations; Married Life - the married life of lay couples and clergy, their sexuality, and any remarriage; and Alternative Living - which explores concubinage and polygyny, as well as the single life in contrast to monogamous sexual unions. In this volume, van Houts deals with four central themes. First, the tension between patriarchal family strategies and the individual family member's freedom of choice to marry and, if so, to what partner; second, the role played by the married priesthood in their quest to have individual agency and self-determination accepted in their own lives in the face of the growing imposition of clerical celibacy; third, the role played by women in helping society accept some degree of gender equality and self-determination to marry and in shaping the norms for married life incorporating these principles; fourth, the role played by emotion in the establishment of marriage and in married life at a time when sexual and spiritual love feature prominently in medieval literature.
