### Heat 2 Strange Chemistry

The Ship has traveled the universe for longer than any of the near-immortal crew can recall, its true purpose and origins unknown. It is larger than many planets, housing thousands of alien races and just as many secrets. Now one of those secrets has been discovered: at the center of the Ship is . . . a planet. Marrow. But when a team of the Ship's best and brightest are sent down to investigate, will they return with the origins of the Ship--or will they bring doom to everyone on board? Robert Reed, whose fantastic stories have been filling all the major SF magazines for the past several years, spins a captivating tale of adventure and wonder on an incredible scale in this novel based on his acclaimed novella. ### The Best Science Fiction of the Year Springer Science & Business Media

Centered around the aspiring actress Becca and her whirlwind rise to stardom, Everyone is Tulip is an original graphic novel that explores what it means to be a "star" in a generation that places more attention and value on YouTube clips and memes than it does Hollywood celebrities. Becca Harper lands an acting role she didn't think would go anywhere, and suddenly finds herself flung into a "15 minutes of fame" that sees her likeness not up in lights, but in memes, reaction videos, and even conspiracy theories. Donning the guise of "Tulip" for an experimental artsy video, directed by an affluent jerk (that she somehow ends up dating), Becca's dreams seem to have come true when her persona becomes the talk of the internet. With a sudden army of fans, complications arise when Becca begins to question whether or not she has the right to consider herself a star. Created by indie comic all-stars Dave Baker (Star Trek: Voyager - Seven's Reckoning, F\*ck Off Squad, Night Hunters) and Nicole Goux (Shadow of The Batgirl, F\*ck Off Squad, Jem and The Holograms: Dimensions 3, Murders), Everyone is Tulip is a deeply psychological exploration of the new frontier of modern media and the discomfort of internet fame.

From the mind of #1 New York Times bestselling author Larry Niven, come twenty-six tales and vignettes from this interplanetary gathering place, collected for the first time in one volume. When a tremendous spacecraft took orbit around the Earth's moon and began sending smaller landers down toward the North Pole, the newly arrived visitors quickly set up a permanent spaceport at Mount Forel in Siberia. Their presence attracted many, and a few people grew conspicuously rich from secrets they learned from talking to the aliens. One of these men, Rick Schumann established a tavern catering to all of various species of visiting aliens, a place he named the Draco Tavern. This collection includes: "The Subject Is Closed": A priest visits the tavern and goes one-on-one with a chirpsithra alien on the subject of God and life after death. "Table Manners: A Folk Tale": Rick Schumann is invited to hunt with five folk aliens, but he's not quite sure what their hunt

entails, or if he will be the hunted. "Wisdom of Demons": The age-old question of wisdom vs. knowledge is asked when Rick is confronted by a human who has been granted the wisdom of an individual gligstith(click)optok alien. "Losing Mars" in this unpublished tale, a group of aliens who call Mars and its moon home, arrive at the Tavern only to find that humans have mostly forgotten about their neighboring planet. Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48 Laws of Power, Mastery, and The 33 Strategies Of War.

This book focuses on the vulnerabilities of state and local services to cyber-threats and suggests possible protective action that might be taken against such threats. Cyber-threats to U.S. critical infrastructure are of growing concern to policymakers, managers and consumers. Information and communications technology (ICT) is ubiquitous and many ICT devices and other components are interdependent; therefore, disruption of one component may have a negative, cascading effect on others. Cyber-attacks might include denial of service, theft or manipulation of data. Damage to critical infrastructure through a cyber-based attack could have a significant impact on the national security, the economy, and the livelihood and safety of many individual citizens. Traditionally cyber security has generally been viewed as being focused on higher level threats such as those against the internet or the Federal government. Little attention has been paid to cyber-security at the state and local level. However, these governmental units play a critical role in providing services to local residents and consequently are highly vulnerable to cyber-threats. The failure of these services, such as waste water collection and water supply, transportation, public safety, utility services, and communication services, would pose a great threat to the public. Featuring contributions from leading experts in the field, this volume is intended for state and local government officials and managers, state and Federal officials, academics, and public policy specialists.
