the Middle East and North Africa (MENA) region. This investigation presents learners' positive perceptions of learner autonomy and their readiness to adopt related practices. Building on findings from these RCs, the book introduces collaborative learner autonomy (CLA) as a novel concept of learner autonomy for use in educational contexts in the MENA region. As a concept of gradual development of learner autonomy, the CLA represents a new dynamic learner autonomy development process consisting of individual, competitive, collaborative, and autonomous stages. The CLA advocated in the book emphasizes the constructive role of teachers and educational institutions can play with other stakeholders in developing autonomy in their learners. The book also suggests that it is a shared responsibility that students, teachers, educational establishments, families, society and the educational systems should assume in a spirit of partnership.

Fallstudien zum

Internationalen Management Text Publishing
In 57 realen Fallstudien werden die vielfachen Facetten der internationalen Unternehmenstätigkeit vorgestellt. Die didaktisch geschickt aufbereiteten Fallstudien decken die zentralen Bereiche des Internationalen Managements ab. Zu jeder Fallstudie gehören neben der Problembeschreibung konkrete Fragen mit Lösungshinweisen. In der 4. Auflage wurden zahlreiche Fallstudien durch neue und aktuelle Case Studies ersetzt; die verbleibenden

wurden vollständig überarbeitet. Um die zunehmenden englischsprachigen Vorlesungen im Fach Internationales Management zu unterstützen, sind in der 4. Auflage etwa die Hälfte der Fallstudien in englischer Sprache. *Far Eastern Economic Review* Springer-Verlag Annual Index/abstracts of SAE Technical Papers Technical Literature Abstracts Pakistan & Gulf Economist The Maruti Story Harper Collins Techno-Societal 2020 Harper Collins

The high-stakes game of the underworld has new faces, working for and against Dawood Ibrahim - the shadowy, manipulative figure that pulls the strings. Dawood's own deputy turned arch-rival Chhota Rajan, thug-turned-politician Arun Gawli, Amar (Raavan) Naik and his engineer brother Ashwin Naik, and a host of other characters, big and small, walk the pages of this compelling history of the Maharashtrian mobsters who were once dubbed 'amchi muley', 'our

boys', by Shiv Sena chief Bal Thackeray. Equally fascinating are the stories of the famous - and infamous - policemen and 'encounter specialists' who took the gangs on with great success and not too many scruples. Violence and deceit one expects to read of, but the strength of this book is also its ability to capture the mundane - almost naive - beginnings of what very quickly became the organized crime and brutal vendettas that held Mumbai to ransom

through the last decades of the twentieth century. Meticulously researched and thrillingly told by the acknowledged expert on the underworld, this is faster-paced than Dongri to Dubai, and even more chilling in its implications for India and the subcontinent.

Springer

This book presents theories and case studies for corporations in developed nations, including Japan, for designing strategies to maximize opportunities and minimize threats in business expansion

into developing nations. The case studies featured here focus on Asia, including China and India, and use examples of Japanese manufacturers. Five case studies are provided, including Hitachi Construction Machinery and Shiseido in China and Maruti Suzuki in India. These cases facilitate the reader's understanding of the business environments in emerging economies. This volume is especially recommended for business people responsible for international business development, particularly in China and India. In addition, the book serves as a useful resource for students in graduate-level

courses in international management. World Automotive Industry Trends ... Yearbook Macmillan Journalism -- the Fourth Estate -- has established itself as an integral part of our society. Happenings in India during the British Raj and post-independence are the best testimony of it. Editing is the most significant part of journalism. It plays a significant role in determining the quality of a newspaper or magazine. The purpose of the book is to describe the job of editors and list skills that make them successful. It will assist all those who are in the profession or are thinking of joining it or have entered it with high

ambitions. Practicing journalists aiming to move upwards will also benefit from having a point of reference and a source of idea. The book will be extremely useful for students of media and journalism. The book will help journalists to perform their job better equipped and ensure that they commit fewer mistakes. They would learn the art and science of effective editing and would not find the language of their colleague alien. They will understand the way things have been done in the past and also learn the newer ways of doing editing. The art of editing falls into two categories: journalistic skills to do the job; and editing skills that make the unintelligible

readable. In the past, most of us learnt it through a painful process of trial and error. We don't want the new comers to suffer from that pain and therefore this book *Communication Skills: Effective Editing*. *Industrial Economist Pearson Educaci ó n Charting the 130-years from the arrival of horseless carriages to the advent of driverless vehicles, celebrate the automobile and the romance of the open road. Beginning with the development of the first vehicles powered by an internal combustion engine, Drive explores the early glamour of driving, motor sport, and car design, and looks at how the automobile has shaped the*

modern world. Revealing the advances in technology and design that have made cars faster, safer, and better to drive, and transformed them from a means of transportation into objects of status, excitement, and desire, *Drive tracks trends in auto manufacturing and the public's changing tastes in cars: whether it's Golden Era sports cars such as the MG, Alfa Romeo, Jaguar, and Chevrolet, muscle cars like the Mustang, hot rods, custom cars, the hippie-standard VW, or modern-day hybrid cars. Trivia and fascinating facts covering the growth of car racing, the development of traffic lights, the boom in automobile advertising, the first*

car washes, and the craft of artisan-made cars complete the subject, making it a must-have for car enthusiasts.

Down to Earth
Oxford University Press

Capital is a compelling biography of a critically important megacity, and the effects of sudden and all-consuming capitalist transformation. At the turn of the twenty-first century acclaimed novelist Rana Dasgupta arrived in the Indian capital with a single suitcase. He had no intention of staying for long. But the city beguiled him - he fell in love and in hate with it - and, fourteen years later, Delhi has become his home. Capital tells the story of Delhi's journey

from walled city to world city. It is a story of extreme wealth and power, of land grabs and a cityscape changed almost beyond recognition. Everything that was slow, intimate and idiosyncratic has become fast, vast and generic; every aspect of life has been affected - for the poor, the middle classes and the super-rich. Through a series of fascinating personal encounters Dasgupta takes us inside the intoxicating, sometimes terrifying transformation of India's fastest-growing megacity, offering an astonishing 'report from the global future'. Rana Dasgupta won the 2010 Commonwealth Writers' Prize for Best Book for his debut novel, Solo. He is also

the author of the highly praised story collection Tokyo Cancelled. Capital is his first work of non-fiction. Born in England, he now lives in Delhi.

textpublishing.com.au

'The most unexpected and original Indian writer of his generation.' Salman Rushdie '[Dasgupta has] a gift for sentences of lancing power and beauty.'

New Yorker 'A beautifully written portrait of a corrupt, violent and traumatised city growing so fast it is almost unrecognisable to its own inhabitants. An astonishing tour de force by a major writer at the peak of his powers.'

An extraordinary and rare insight into how a few determined entrepreneurs created an icon... - C. K. Prahalad

The targets were stupendous and considered unachievable by almost everyone. Slightly over two years to find a suitable partner, finalize all legal documentation, get governmental approval to these agreements as well as to the investment proposals, build a factory, develop a supplier base to meet localization regulations, create

a sales and service network, and develop and launch a peoples car that would sell 100,000 a year, in a sector where Indian expertise was limited. And to do this as a public sector company, having to follow all governmental systems and procedures, and having to please both its masters in the government and Suzuki Motor Corporation. However, the Maruti project succeeded, and in ways that were unimaginable in 1983. The car revolutionized the

industry and put a country on wheels. Suddenly, ordinary middle-class men and women could aspire to own a reliable, economical and modern car, and the steep sales targets were easily met. Twenty-six years later, the company, now free of government controls and facing competition from the worlds major manufacturers who have entered the Indian market, still leads the way. Not only that, cars made by Maruti can be seen in all continents. By any yardstick, it is an incredible story,

involving grit, management skill and entrepreneurship of a high order. R.C. Bhargava, who was at the helm of the company, and is currently its chairman, co-writing with senior journalist and author Seetha, shows how it was done in this riveting account of a landmark achievement. Environmental Rating of Indian Automobile Sector Simon and Schuster This new edition of Friedman's landmark book explains the flattening of the world better than

ever- and takes a new measure of the effects of this change on each of us. Byculla to Bangkok Allied Publishers Management Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases. Him I Annual

mechanics, biomedical instrumentation, ergonomics, biodynamic modeling, nuclear engineering, agriculture engineering, and farm machineries. The contents of the book will benefit both researchers and professionals. Irrigation and Power DK
Lost Glory: India's Capitalism Story deconstructs India's industrialization story, challenging contemporary ideas about her economy. Based on careful and detailed empirical analyses of India's industrialization, for a period of almost seven decades, the

book provides deeply-nuanced depictions of the history of political economy, that have affected India's industrialization over the course of a century. These dimensions of India's economic history have never before been collated and presented. The presentation takes readers on a definitive evidence-based survey of India's industrial landscape. It includes a detailed historical description of the intellectual origins of India's modern industrialization, anchored in a privileged view of economic policy making. Grounded in deep historical and political analyses, that account for the variations, continuities, and changes in

institutional contingencies, the facts derived on India's long-term economic performance are used to put the record straight. The findings of the book will transform debate, and set the agenda for thoughtfully assessing what course the Indian economy needs to follow. The Hindu Index Sterling Publishers Pvt. Ltd
Never Far Away is a short story and resource for the parent who has a child that doesn't like to separate from them when time for school or work. It has illustrative pictures and content for the parent and child to interact before they go about their day. Southern

Economist

This book, divided in two volumes, originates from Techno-Societal 2020: the 3rd International Conference on Advanced Technologies for Societal Applications, Maharashtra, India, that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations. The focus of this volume is on technologies that help develop and improve society, in particular on issues

such as advanced and sustainable technologies for manufacturing processes, environment, livelihood, rural employment, agriculture, energy, transport, sanitation, water, education. This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region. On the other hand, technologies proposed by expert researchers may find applications in different regions.

This offers a multidisciplinary platform for researchers from a broad range of disciplines of Science, Engineering and Technology for reporting innovations at different levels.
