Here is a book, which embraces the entire population of our country irrespective of their caste religion, sex, and age. Automobiles and its developments had changed our way of life beyond our wildest dreams. It also brought us a number of serious problems like accidents, pollution, congestion etc. In 2017, India lost 4.07 Lakhs Crores. Because of accidents and congestion, pollution was the cause of death of 12.4 Lakh of people. The appalling human misery and economic losses by automobiles demand immediately implementable solutions. Many books have been written about this but; you will find this book is special and unique in many respects. In short 'THIS IS AN ACTION BOOK' however even small action will have an impact on society now and in future. Its main theme is 'YOU ARE THE ONLY PERSON WHO CAN AND SHOULD ENSURE YOUR OWN SAFETY.' Definitely, this is not for theoretical knowledge, but practical implementable recipes, which are bound to bring results.

India's recent economic performance has attracted world attention but the country is re-awakening not just as an economy but as a civilization. After a thousand years of the decline, it now has a genuine opportunity to re-establish itself as a major global power. In 'The Indian Renaissance?', the author, Sanjeev Sanyal, looks at the processes that led to ten centuries of fossilization and then at the powerful economic and social forces that are now working together to transform India beyond recognition. These range from demographic shifts to rising literacy levels, but the most important revolution has been the opening of mind and the changed attitude towards innovation and risk. This book is about how India found itself at this historic juncture, the obstacles that it still needs to negotiate and the future that it may enjoy. The author tells the story from the perspective of the new generation of Indians who have emerged from this great period of change. Published and distributed worldwide by World Scientific Publishing Co. except India, UK and North America

Drive Safe – Be Safe World Scientific

Can one car transform a nation? The Ford Model T did do so a century ago when it replaced the horse, brought about a revolution in agriculture, became a stimulus to urbanization that eventually changed the landscape of America. Though the Maruti 800, the Tata Indica, the Hyundai Santro and the Maruti Alto, became engines of growth for India, these cars neither drove away the cow nor changed the way Indians travelled. Tata's Nano was expected to change all that and become the ultimate people's car, capturing the imagination of the middle class across nations and cultures. In spite of its petite dimensions, the Nano was meant to stand tall. Yet it did not. What caused it to fail and fall from grace despite being lauded as the 'right product at the right time' and 'the most significant new car since the Ford Model T was introduced 100 years ago'? But is it really all over or is there still hope for India's 'little wonder'? What will the people's cars of tomorrow be like? A Million Cars for a Billion People delves into the questions, concerns and doubts, as well as the many misconceptions and myths, that have gathered momentum over the years about India's automotive history and the industry's mission to create a true 'people's car'. The very first cars that came to India; the early beginnings of the industry; the nascent history of the automobile across nations like Germany, France, US, the UK, Italy, Japan and South Korea, is narrated with authority and charm, from the viewpoint of the quest for the ultimate people's car.
