“Packed with transformative insights, Dealmaking will help a new generation of business leaders get to yes.”—William Ury,

coauthor of *Getting to Yes*

Informed by meticulous research, field experience, and classroom-tested strategies, Dealmaking offers essential insights for anyone involved in buying or selling everything from cars to corporations.

Leading business scholar

Guhan Subramanian

provides a lively tour of both negotiation and auction theory, then takes an in-depth look at his own hybrid theory, outlining three specific strategies readers can use in complex dealmaking situations.

Along the way, he examines case studies as diverse as buying a house, haggling over the rights to a TV show, and participating in the auction of a multimillion-dollar company. Based on broad research and detailed case studies, Dealmaking brings together negotiation and auction strategies for the first time, providing the jargon-free, empirically sound advice professionals need to close the deal.

September 5th, 2011. A New Edition of the Phenomenal #1 Bestseller "One mark of a great book is that it makes you see things in a new way, and Mr. Friedman certainly succeeds in that goal," the Nobel laureate Joseph E. Stiglitz wrote in The New York Times reviewing The World Is Flat in 2005. In this new edition, Thomas L. Friedman includes fresh stories and insights to help us understand the flattening of the world. Weaving new information into his overall thesis, and answering the questions he has been most frequently asked by parents across the country, this third edition also includes two new chapters--on how to be a political activist and social entrepreneur in a flat world; and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures. The World Is

Flat 3.0 is an essential update on globalization, its opportunities for individual empowerment, its achievements at lifting millions out of poverty, and its drawbacks--environmental, social, and political, powerfully illuminated by the Pulitzer Prize--winning author of The Lexus and the Olive Tree.

*Corporate Governance and Accountability* Basic Books

An extraordinary and rare insight into how a few determined entrepreneurs created an icon... - C. K. Prahalad  
The targets were stupendous and considered unachievable by almost everyone. Slightly over two years to find a suitable partner, finalize all legal documentation, get governmental approval to these agreements as well as to the investment proposals, build a factory, develop a supplier base to meet localization regulations, create a sales and service network, and develop and launch a peoples car that

would sell 100,000 a year, in a sector where Indian expertise was limited. And to do this as a public sector company, having to follow all governmental systems and procedures, and having to please both its masters in the government and Suzuki Motor Corporation.

However, the Maruti project succeeded, and in ways that were unimaginable in 1983. The car revolutionized the industry and put a country on wheels. Suddenly, ordinary middle-class men and women could aspire to own a reliable, economical and modern car, and the steep sales targets were easily met. Twenty-six years later, the company, now free of government controls and facing competition from the worlds major manufacturers who have entered the Indian market, still leads the way.

---

Not only that, cars made by Maruti can be seen in all continents. By any yardstick, it is an incredible story, involving grit, management skill and entrepreneurship of a high order. R.C. Bhargava, who was at the helm of the company, and is currently its chairman, co-writing with senior journalist and author Seetha, shows how it was done in this riveting account of a landmark achievement.

If you saw a toothpick on the floor, what would you do? This seemingly innocuous question was posed to Subir Chowdhury by one of his longtime clients, and ultimately lead him to a profound realization: good enough is not enough. The best processes in the world won't work without developing the kind of mindset — a caring mindset — that is needed to achieve real and sustainable change in both organizations

---

and individuals. In his compelling new book, bestselling author and globally recognized management consultant Subir Chowdhury tackles an issue that has haunted him in his work with many of the world's largest organizations. Why is it that some improve only incrementally, while others improve 50 times that? The ideas and training are exactly the same. What is the difference? The difference, Chowdhury explains, is the ability to nurture the skills, loyalty and passion of the people who make up an organization. It is a culture built on straightforwardness, thoughtfulness, accountability and resolve. Organizations and individuals that embrace all of these "STAR" attributes—not just one or two

of them—will shine. He goes further, showing us why having a caring mindset outside of work is integral to both personal and professional success. A powerful guide to living a successful life and career, *The Difference* will inspire you to be the difference — at work or home.

*Dealmaking: The New Strategy of Negotiauctions* (First Edition) Alfred Music  
The bestselling citizen's guide to economics *Basic Economics* is a citizen's guide to economics, written for those who want to understand how the economy works but have no interest in jargon or equations. ---

and so on. In readable language, he shows how to critique economic policies in terms of the incentives they create, rather than the goals they proclaim. With clear explanations of the entire field, from rent control and the rise and fall of businesses to the international balance of payments, this is the first book for anyone who wishes to understand how the economy functions. This fifth edition includes a new chapter explaining the reasons for large differences of wealth and income between nations. Drawing on lively examples from around the world and from centuries of history, Sowell explains basic economic principles for the general public in plain English.
