This Independence Day edition of The World is Flat 3.0 includes an exclusive preview of That Used to Be Us: How America Fell Behind in the World It Invented and How We Can Come Back, by Thomas L. Friedman and Michael Mandelbaum, on sale September 5th, 2011. A New Edition of the Phenomenal #1 Bestseller "One mark of a great book is that it makes you see things in a new way, and Mr. Friedman

certainly succeeds in that goal," the Nobel laureate Joseph E. Stiglitz wrote in The New York Times reviewing The World Is Flat in 2005. In this new edition, Thomas L. Friedman includes fresh stories and insights to help us understand the flattening of the world. Weaving new information into his overall thesis, and answering the questions he has been most frequently asked by parents across the country, this third edition also includes two new chapters--on how to be a political activist and social entrepreneur in a flat world; and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures. The World Is Flat 3.0 is an essential update on globalization, its

opportunities for individual empowerment, its achievements at lifting millions out of poverty, and its drawbacks--environmental, social, and political, powerfully illuminated by the Pulitzer Prize--winning author of *The Lexus and the Olive Tree*.

There's no business like the car business! Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for India, the 'Sunshine Car' has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival

brands, the unforgettable marketing campaigns that made all the difference and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging, this is a business story with a difference about a car like no other.
