Search and Rescue is a system in Mass
Effect 3 that replaces the Planet Scanning
mini-game from Mass Effect 2. The
Normandy SR-2 is equipped with a new
and improved scanning pulse that can
detect objects of interest. This can be used
to uncover War Assets, artifacts, intel, and
salvage as the player flies around a system.
The effective range of a pulse is limited, so
multiple scans are often required to cover
an entire system.

Scanning planets in Mass Effect 3 works slightly differently to that of 2 in that you don't hunt for minerals; instead you send a probe into certain planets for assets such as artifacts, credits or even new War Assets. Most solar systems also have Reapers hanging around the outskirts and if you scan too much, a bar will fill up and the Reapers will enter that ...
