The Other Side of Charleston
Amer Society of Agricultural
This is the first full-scale history of
one of the largest farm tractor
manufacturers of all time,
peppered with pictures of Massey-

Harris, Ferguson, and Massey Ferguson's historic models, collectibles, sales memorabilia, and advertisements from old farm magazines. The Big Book of Massey Tractors tells the story of the mergers and machines that formed Massey Ferguson over several decades, and—because these machines dominated Canadian farms for almost a century—in many ways it also tells the story of Canadian agriculture. Robert Pripps, a longtime tractor aficionado, describes Massey Ferguson's battle with Ford over dominance of the farm tractor industry—a battle the company eventually won, remarkably enough, in view of its initial abject market failure with tractors. From

the company's beginnings in 1891, to its 1953 merger with the Ferguson tractor company, to its current ownership by Allis-Gleaner Company (AGCO), Masseys have played a large role in our agricultural history. The Big Book of Massey Tractors celebrates that role and showcases the machines that have helped turn the earth for over a hundred years.

Scotland is one of the best places in the world to garden. Its maritime climate, ample rainfall, and the rarity of severe droughts and really hot weather mean that huge numbers of plants grow well there. But the climate varies considerably - from the colder,

wetter, windier mountainous areas to the west coast where tender plants can be grown outdoors all year round - and choosing plants that are suited to the local conditions is critical to success. Kenneth Cox and Raoul Curtis-Machin have evaluated the performance of thousands of plants in gardens all over Scotland, drawing on the knowledge and experience of many gardeners and nurserymen, and in this book they describe - with over 800 photographs - the most reliable shrubs, conifers, trees, fruit and perennials for Scotland. In this book Scottish gardeners will find accurate information and hundreds of great plants ideally suited to where they

live.

effects of addiction have rendered many parents unable to fulfill their obligations & have left grandparents with the responsibility of raising their grandchildren. Among many other critical issues, she discusses anger, resentment, social isolation, & helplessness that these grandparents & grandchildren feel; the postponement, sometimes forever, of grandparents' cherished personal goals due to the needs of their grandchildren; & the

difficulties caused by the grandparents' failing health & diminishing finances.
