Some churches struggle with attacks from without, while others must deal with threats from within. Dr. Greg Tyree's book is a welcome contribution to this subject, because conflict often hinders churches from reaching their glorious potential. Those who observe churches point to a number of issues that threaten their existence. Some suggest the main threat is materialism, while others blame secularism. Still others tell us that churches are in jeopardy because of doctrinal drift. I contend that churches are frequently endangered because those who lead can't handle conflict efficiently. Jesus said, "By this all will know that you are My disciples, if you love for one another" (John 13.35, NKJV). Your ability to love the brethren is the most convincing proof you are a disciple, and this is the

reason that Greg's book is so important. Greg does not direct others while sitting in a command center far from the battlefield. He labors in the turbulent world of turning churches around. This gives his book an air of authenticity. He knows how to grow healthy churches and understands that handling conflict is one of the keys. As you read his book, you will discover what prevents many churches from reaching their God-given potential. You will learn how to turn negative situations into opportunities to glorify God. Creativity and Conflict Resolution Oxford University Press

One global leadership challenge is

managing the complexity of the political and economic climate of a society. As the global environment changes, it is essential for global leaders to adapt and develop flexible strategies for resolving conflicts and achieving peace. Global Leadership Initiatives for Conflict Resolution and Peacebuilding provides emerging research on a leader's role in the international, national, and nongovernmental organization within post-conflict resolution and peaceful leadership. While highlighting topics, such as civil society organizations, leadership education, and social reconstruction, this book explores leadership theories and practice models to conceptualize the intersection of leadership within conflict management and resolution. This book is an important resource for leaders, scholar-practitioners, educators, and researchers seeking current research on the strategic and diplomatic methods of a peaceful global organization.

The Handbook of Conflict Resolution US Institute of Peace Press

This book explores how creative ways of resolving social conflicts emerge, evolve, and subsequently come to be accepted or rejected in inter-group relations. Creativity and Conflict Resolution explores a subject with which political communities involved in social conflict have always grappled: creative ways of imagining and actualizing visions of conflict resolution. This is an ambitious question, which concerns human communities at many different levels, from families, regional-independence movements, and national governments, to inter-state alliances. The author argues that unconventional viability lies at the heart of creativity for transcending seemingly intractable inter-communal conflicts. More specifically, conflict resolution creativity is a social and epistemological process, whereby actors involved in a given social conflict learn to formulate an unconventional resolution option or procedure. Demystifying the origin of unthinkable

breakthroughs for conflict resolution and illuminating theories of creativity based on 17 international case studies, this book will be of much interest to students of conflict resolution, peace and conflict studies, human security and IR. Tatsushi Arai is an Associate Professor of Peace and Conflict Transformation at the SIT Graduate Institute in Vermont, USA. He has a PhD in Conflict Resolution from George Mason University, Washington DC, and extensive practical experience in the field.

International Conflict Resolution and Peacebuilding Strategies Routledge

Ho-Won Jeong explains and assesses major approaches to dealing with ethnic conflict, communal violence, inter-state war and social injustice. The book analyses not only the sources of violence and conflict, but also how to manage and prevent them. As peace is relevant to improvement in human well-being and the future survival of humanity, the volume encompasses a variety of themes, ranging from alternative security policies, methods of peaceful settlement, human rights, self-determination, environmental politics, global governance and non-violence. Reflecting on the current thinking and drawing lessons from the past, the book can be considered as the most authoritative introduction to the field since the end of the Cold War.

Global Leadership Initiatives for Conflict Resolution and Peacebuilding Ibidem Press

As recent conflicts in Panama and the Persian Gulf demonstrate, we know much more about making war than we do about making peace. Such conflicts are not likely to disappear, and this volume reviews what has and hasn't worked in negotiating an end to war. Six case studies-ranging from World War I to the Persian Gulf crisis-illustrate a variety of actors, stakes, and strategies involved in the peacemaking process. Key turning

points toward peace or deadlock are identified along the way. Making Peace also provides discussion questions, historical backgrounds, and theoretical introductions to show different-and differentially successful-avenues to peace.

Elusive Peace Routledge

"The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation offers an authoritative and comprehensive overview of peacebuilding, statebuilding, and peace formation. With contributions from over thirty distinguished and leading scholars, the Handbook provides a timely, engaging, and critical overview of conceptual foundations, political implications, and tensions at the global, regional, and local levels. It examines the key policies, practices, examples, and discourses underlining various segments of peacebuilding, statebuilding, and peace formation both as discursive formulations and as policy practices. Organized around four major thematic sections, the Handbook offers a state-of-the-art synthesis of the most pressing contemporary peace and conflict issues and charts new pathways for responding to transnational insecurities"--

Peace and Conflict Studies SAGE

This book provides students, activists, community organizers and the general public with a concise and clear guide on how to approach, analyze and address conflict in order to transform relationships and work towards peace with justice. In doing so, it details a systematic process to analyze conflict, and offers an understandable framework in which to situate and choose strategies of building cultures of peace. It acknowledges the academic divide between the disciplines of peace studies and conflict resolution studies, yet is relevant to students of both fields. The volume draws on relevant theory and research from sociology, psychology, critical studies and

anthropology, and starts from the assumption that conflict analysis and transformation must include a critical analysis of hegemony and power.

Our Brains at War: The Neuroscience of Conflict and Peacebuilding suggests that we need a radical change in how we think about war, leadership, and politics. Most of us, political scientists included, fail to appreciate the extent to which instincts and emotions, rather than logic, factor into our societal politics and international wars. Many of our physiological and genetic tendencies, of which we are mostly unaware, can all too easily fuel our antipathy towards other groups, make us choose 'strong' leaders over more mindful leaders, assist recruitment for illegal militias, and facilitate even the

most gentle of us to inflict violence on others. Drawing upon the latest research from emerging areas such as behavioral genetics, biopsychology, and social and cognitive neuroscience, this book identifies the sources of compelling instincts and emotions, and how we can acknowledge and better manage them so as to develop international and societal peace more effectively.

7 Winning Conflict Resolution Techniques SAGE

This book examines the remaking of women's citizenship in the aftermath of conflict and international intervention. It develops a feminist critique of consociationalism as the dominant model of post-conflict governance by tracking the gendered implications of the Dayton Peace Agreement. It illustrates how the legitimisation of ethnonationalist power enabled by the agreement has reduced citizenship to an all-encompassing logic of ethnonational belonging and implicitly reproduced its attendant patriarchal gender order. Foregrounding women's diverse experiences, the book reveals gendered ramifications produced at the intersection of conflict, ethnonationalism and international peacebuilding. Deploying a multidimensional feminist approach centred around women's narratives of belonging, exclusion, and agency, this book offers a critical interrogation of the promises of peace and explores individual/collective efforts to re-imagine citizenship.

Building Peace Ohio University Press
The analysis and interpretation of conflicts can be a dangerously simplistic exercise. A western, developed socio-economic perspective can simplify conflicts in the so-called 'Third World' as the inevitable struggles of people who cannot coexist because of ethnic, religious or cultural differences. While acknowledging that many contemporary conflicts are characterised and influenced by these factors, this book calls for an approach to conflict prevention and resolution which mainly addresses the underlying political, economic and social causes. The conflict in Sudan, where narratives evolved from an interpretation based on religious differences between a Muslim North and the Christian South, provides a case study through which the author explores how most prevention and resolution strategies were based on flawed assumptions leading to poor results. By focusing instead on the underlying socio-economic inequality and marginalisation among groups she analyses the dynamics of the complex peace process to ascertain if and how economic and social rights were effectively included and implemented as a part of the peace agreement, including after South Sudan's independence.

Understanding Conflict Resolution
Routledge

This book helps leaders understand that conflict does not equal inevitable negativity. This book explores the science behind conflict and human interaction to help leaders develop strategies to navigate conflict, manage differences and cultivate a workplace

that empowers employees to thrive and pursue a life of security and dignity.
Gender and Citizenship Syracuse University Press

This book provides a broad framework for scholar-practitioners to assist parties in conflict to collaboratively and comprehensively analyze and address diverse conflicts using all-manner of conflict interventions and theories emerging out of the twin fields of conflict resolution and peace studies. The generalist approach, which emphasizes both 'ways of doing' and skills, as well as 'ways of being' and principles, rests on solid theoretical foundations and evaluation research is integral to the approach.

Conflict Resolution Beyond the International Relations Paradigm
Taylor & Francis

This book uses a series of case studies to examine the roles played by universities during situations of conflict, peacebuilding and resistance. While a body of work dealing with the role of education in conflict does exist, this is almost entirely concerned with compulsory education and schooling. This book, in contrast, highlights and promotes the importance of higher education, and universities in particular, to situations of conflict, peacebuilding and resistance. Using case studies from Europe, Africa, Asia and the Middle East, this volume considers institutional responses, academic responses and student responses, illustrating these in chapters written

by those who have had direct experience of these issues. Looking at a university's tripartite functions (of research, teaching and service) in relation to the different phases or stages of conflict (pre conflict, violence, post conflict and peacebuilding), it draws together some of the key contributions a university might make to situations of instability, resistance and recovery. The book is organised in five sections that deal with conceptual issues, institutional responses, academic-led or discipline-specific responses, teaching or curriculum-led responses and student involvement. Aimed at those working in universities or concerned with conflict recovery and peacebuilding it highlights ways in which universities can be a valuable, if currently neglected, resource. This book will be of much interest to students of peace studies, conflict resolution, education studies and IR in general.

Peacekeeping and Conflict Resolution Basic Books

This thoroughly revised edition of Peter Wallensteen's text provides a comprehensive guide to understanding conflict resolution in the contemporary global environment. Understanding Conflict Resolution draws on recent and classic research from around the world, linking the theory of conflict resolution to in-depth case studies throughout. The first part reviews the development of conflict resolution since the Cold War and demonstrates the various approaches to conflict analysis. The core of the book explores the settlement of three major types of international conflict: inter-state, internal and those arising from state formation. In the final part, regional and international approaches are examined, and questions posed regarding the future of conflict resolution. This new edition has

been brought fully up to date with coverage of the ongoing war on terror, as well as events in Sudan, Lebanon, Sri Lanka and Zimbabwe.

Part Three considers the developments in UN reform and the increasing importance of civil society organizations.

Understanding Conflict Resolution remains an essential text for all students, lecturers and researchers of peace and conflict resolution in international relations, global politics and political science.

Peace in the Workplace Baker Books Across the globe, there are more than 50 armed conflicts, many of which are being perpetrated in the name of religion. In these zones of violence, there are brave men and women who, motivated by their religious beliefs, are working to create and sustain peace and reconciliation. Yet their stories are unknown. This book explores the conflicts and the stories of 15 remarkable individuals identified and studied by the Tanenbaum Center for Interreligious Understanding from regions as far-flung as West Papua, Indonesia, the Middle East, Northern Ireland, Nigeria, El Salvador and South Africa. The book also captures important lessons learned when these peacemakers convened in Amman, Jordan for the 2004 Peacemakers in Action Retreat and discussed their best techniques and greatest obstacles in creating peace on the ground. *Peacemakers in Action* provides guidance to students of religion and future peacemakers.
