NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a Course ID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. For courses in non-majors biology. Helps students learn the concepts and applications of human biology using relevant topics and realistic scenarios. Known for its unique "Special Topic" chapters and emphasis on everyday health concerns, the Sixth Edition of *Biology of Humans: Concepts, Applications, and Issues* continues to personalize the study of human biology using a conversational writing style, vibrant, easy-to-follow illustrations, abundant applications, and a new emphasis on using everyday science literacy skills. The authors provide a practical, friendly introduction to the study of the human body, preparing students to navigate today's rapidly expanding and shifting world of health information. Each chapter now features brand-new "Consider This Case" exercises and "Finding and Evaluating Information" activities that challenge students to think critically and apply their knowledge to solve real-world cases. Along with scientific updates and content improvements throughout the text, the Sixth Edition also includes a new "Special Topic" chapter on the Obesity Epidemic. Also available with MasteringBiology™ MasteringBiology is an online homework, tutorial, and assessment product designed to improve results by helping students quickly master concepts. Students benefit from self-paced tutorials that feature immediate wrong-answer feedback and hints that emulate the office-hour experience to help keep students on track. With a wide range of interactive, engaging, and assignable activities, students are encouraged to actively learn and retain tough course concepts.

Life: The Science of Biology Study Guide Macmillan

Coleen Belk and Virginia Borden Maier have helped students demystify biology for nearly twenty years in the classroom and nearly ten years with their book, *Biology: Science for Life with Physiology*. In the new Fourth Edition, they continue to use stories and current issues, such as discussion of cancer to teach cell division, to connect biology to student's lives. Learning Outcomes are new to this edition and integrated within the book to help professors guide students' reading and to help students assess their understanding of

biology. A new Chapter 3, "Is It Possible to Supplement Your Way to Better Health? Nutrients and Membrane Transport," offers an engaging storyline and focused coverage on micro- and macro-nutrients, antioxidants, passive and active transport, and exocytosis and endocytosis. This package contains: *Biology: Science for Life with Physiology*, Fourth Edition
Biology Benjamin-Cummings Publishing Company
Neil Campbell and Jane Reece's *BIOLOGY* remains unsurpassed as the most successful majors biology textbook in the world. This text has invited more than 4 million students into the study of this dynamic and essential discipline.

Biology Benjamin-Cummings Publishing Company
The most comprehensive coverage at the most affordable price for non-majors biology. With a

proven and effective tradition of engaging readers with real-world applications, high-interest case studies, and inquiry-based pedagogy, Biology: Life on Earth fosters discovery and scientific understanding that students can use throughout their lives. Engaging Case Studies throughout each chapter and thoughtful pedagogy help students develop critical thinking and scientific literacy skills. The 12th Edition offers the most comprehensive coverage at the most affordable price for the non-majors biology student. This loose-leaf edition maintains its conversational, question-and-answer presentation style that has made it a best-seller. The new edition expands its focus on the process of science with new Doing Science boxes throughout the text that walk students through the scientific process, and interactive Doing Science coaching activities in Mastering Biology. The text also provides Think Deeper questions that give instructors guidance for starting classroom discussions that promote critical thinking. For non-majors/mixed biology courses. Pearson eText is a simple-to-use, mobile-optimized, personalized reading experience. It lets students highlight, take notes, and review key vocabulary all in one place, even when offline. Seamlessly integrated videos and other rich media engage students and give them access to the help they need, when they need it. Educators can easily schedule readings and share their own notes with students so they see the connection between their eText and what they learn in class - motivating them to keep reading, and keep learning. And, reading analytics offer insight into how students use the eText, helping educators tailor their instruction. NOTE: This ISBN is for the Pearson eText access card. For students purchasing this product from an online retailer, Pearson eText is a fully digital delivery of Pearson content and should only be purchased when required by your instructor. In addition to your purchase, you will need a course invite link, provided by your instructor, to register for and use Pearson eText.
