Coleen Belk and Virginia Borden Maier have helped students demystify biology for nearly twenty years in the classroom and nearly ten years with their book, *Biology: Science for Life with Physiology*. In the new Fourth Edition, they continue to use stories and current issues, such as discussion of cancer to teach cell division, to connect biology to student's lives. Learning Outcomes are new to this edition and integrated within the book to help professors guide students' reading and to help students assess their understanding of biology. A new Chapter 3, "Is It Possible to Supplement Your Way to Better Health? Nutrients and Membrane Transport," offers an engaging storyline and focused coverage on micro- and macro-nutrients, antioxidants, passive and active transport, and exocytosis and endocytosis. This package contains: *Biology: Science for Life with Physiology*, Fourth Edition

Human Biology Pearson

For non-majors biology courses Engage students in science with stories that relate to their lives *Biology: Science for Life* weaves a compelling storyline throughout each chapter to grab student attention through the exploration of high-interest topics such as genetic testing, global warming, and the Zika virus. The authors return to the storyline again and again, using it as the basis on which they introduce the biological concepts behind each story. In the 6th Edition, new active learning features and author-created resources help instructors implement the storyline approach in their course. The Big Question is a new feature that helps students learn how to use data to determine what science can answer while developing their ability to critically evaluate information. Also available with Mastering Biology or as an easy-to-use, standalone Pearson eText Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and often improves results for each student. New to the 6th edition are author-created Figure Walkthrough videos that guide students to solidify their understanding of the concepts within challenging illustrations as well as Make the Connection activities that help students bridge the gap between each storyline and the science behind it, as well as Ready-to-Go Teaching Modules for select chapters that provide instructors with assignments to use before and after class, as well as in-class activities. Pearson eText allows educators to easily share their own notes with students so they see the connection between their reading and what they learn in class-motivating them to keep reading, and keep learning.
