Mastering operational risk (Book, 2010) [WorldCat.org]

Operational risk is a constant concern for all businesses. It goes far beyond operations and process to encompass all aspects of business risk, including strategic and reputational risks. Within financial services, it became codified by the Basel Committee on Banking Supervision in the 1990s. It is something that needs to be taken seriously by all those involved in running, managing and ...

Mastering Operational Risk, by Tony Blunden and John Thirlwell (published by Financial Times Prentice Hall) is a practical guide to understanding operational risk and how to manage it. The global financial crisis, the Gulf of Mexico oil well disaster and the Icelandic volcano, operational risk goes far beyond operations and process risks to cover all aspects of business risk - human failure, strategic and reputational risks, as well as natural and man made disasters.
