The NGSS were developed by states to improve  
science education for all students. A goal for  
developing the NGSS was to create a set of research-  
based, up-to-date K – 12 science standards. These  
standards give local educators the flexibility to design  
classroom learning experiences that stimulate  
students ' interests in science and prepares them for  
college, careers, and citizenship.

There is more to mastering reading than you might  
think. Students should not be considered proficient  
until they are reading with comprehension. This  
includes being able to take in meaning, to put it in  
context and to make inferences, all while reading.  
Ultimately, reading also requires metacognition, the  
ability to think critically about what is being read, to
