The Dante Club Scholastic Inc.

The New York Times bestselling guide to thinking like literature's greatest detective. "Steven Pinker meets Sir Arthur Conan Doyle" (Boston Globe), by the author of *The Confidence Game*. No fictional character is more renowned for his powers of thought and observation than Sherlock Holmes. But is his extraordinary intellect merely a gift of fiction, or can we learn to cultivate these abilities ourselves, to improve our lives at work and at home? We can, says psychologist and journalist Maria Konnikova, and in *Mastermind* she shows us how. Beginning with the "brain attic"—Holmes' s metaphor for how we store information and organize knowledge—Konnikova unpacks the mental strategies that lead to clearer thinking and deeper insights. Drawing on twenty-first-century neuroscience and psychology, *Mastermind* explores Holmes' s unique methods of ever-present mindfulness, astute observation, and logical deduction. In doing so, it shows how each of us, with some self-awareness and a little practice, can employ these same methods to sharpen our perceptions, solve difficult problems, and enhance our creative powers. For Holmes aficionados and casual readers alike, Konnikova reveals how the world' s most keen-eyed detective can serve as an unparalleled guide to upgrading the mind.

The secret behind limitless leadership impact Lack of mentorship and coaching is a leading reason for leader attrition in education, but it doesn't have to be this way. If it's true that "Everyone wins when the leader gets better," then your

community is counting on you to prioritize your own professional growth – so that YOU get better. In *Mastermind: Unlocking Talent Within Every School Leader*, Daniel Bauer – highly sought-after coach and mentor to thousands of school leaders – introduces readers to a strategic advantage relied on by business leaders since the 1930s. The mastermind is an exceptional PD model for leaders looking to level up – and if this advantage worked for people like Andrew Carnegie, Henry Ford, and FDR, what could it do for you and your school? Framed around the ABCs of Powerful Professional Development™, this book will provide school leaders with: Templates and tools for starting and running successful mastermind groups Protocols to encourage collaboration, dialogue, and problem solving so school leaders can work together to overcome challenges Stories of impact from education mastermind participants all over the world The question is – what would you be able to accomplish within your school if you showed up this year as the leader you were meant to be?

Explore how entrepreneurial thinking can dramatically improve your work, life and relationships Having the drive, ambition and inspiration to start a new business takes a special mind-set and self-confidence—think Steve Jobs, Elon Musk, Mark Zuckerberg. It's no wonder that we regard successful entrepreneurs as modern-day magicians, transforming sometimes-radical ideas into global brands that change the way we live our lives. But what if that spirit and drive were applied to the world outside of business start-ups? An entrepreneur seeks to build something from nothing, to take an inspired idea and make it a reality. In [How to Think Like an Entrepreneur](#), Philip Delves Broughton will explore what it takes to be a successful entrepreneur—the ability to disrupt the status quo and generate fresh perspectives—and ultimately lead us to the heart of great entrepreneurial thinking: an understanding of our deepest human needs. By

harnessing the passion, verve and limitless imagination of an entrepreneur, this book will show you new ways to improve your business, but also your life and relationships. "Self-help books for the rest of us." - The New York Times

Napoleon Hill on two occasions wrote extensive memoirs about his life, starting with his youth in Wise County, Virginia, and ending, apparently, during World War II. I say "apparently" because the archives of the Napoleon Hill Foundation contain these two manuscripts, but they are obviously incomplete and end in the 1940s. Mr. Hill died in 1970. His last book, [Grow Rich with Peace of Mind](#), was written in 1967 and sheds some light on his later years; but his own journals and memoirs of those years, if they ever existed, have not yet been found. The two memoirs were titled by Mr. Hill, [Wheel of Fortune](#) and [Hand of Destiny](#). They contain details of his life, including his four marriages, two divorces and one annulment, which we at

the Foundation have not seen in any of his other writings or speeches. They also contain many details about his successes and failures in business and there were more failures than successes, as he readily admits. The memoirs contain thoughtful insights into the state of mind of this great thinker—how he dealt with failure, profited from defeat, turned adversity into advantage, and ultimately achieved happiness with his last wife, Annie Lou, happiness which had eluded him for most of his life. Mr. Hill has said that the Master Mind principle, in which two or more minds work harmoniously to achieve a common goal, is the most important of the seventeen principles of success he studied during his decades of research into how people attain happy and successful lives. One of the many interesting stories in the memoirs is about how he and his third wife, Rosa Lee, used the Master Mind principle to discover the only one of the seventeen principles that no one had understood or realized before, [Cosmic Habitforce](#). The Trustees of the Napoleon Hill Foundation have combined the two memoirs into one, editing out repetition and putting events in chronological order where it made sense to do so. They chose to title the combined memoirs [Master Mind](#), in recognition of the importance this principle played in his philosophy and life, and as a tribute to the mental giant who was the greatest thinker and writer ever in the fields of personal achievement and self-improvement.

A former rocket scientist reveals the habits, ideas, and strategies that will empower you to turn the seemingly impossible into the possible. Rocket science is often celebrated as the ultimate triumph of technology. But it's not. Rather, it's the apex of a certain thought process -- a way to imagine the unimaginable and solve the unsolvable. It's the same thought process that enabled Neil Armstrong to take his giant leap for mankind, that allows spacecraft to travel millions of miles through outer space and land on a precise spot, and that brings us closer to colonizing other planets. Fortunately, you don't have to be a rocket scientist to think like one. In this accessible and practical book, Ozan Varol reveals nine simple strategies from rocket science that you can use to make your own giant leaps in work and life -- whether it's landing your dream job, accelerating your business, learning a new skill, or creating the next breakthrough product. Today, thinking like a rocket scientist is a necessity. We all encounter complex and unfamiliar problems in our lives. Those who can tackle these problems -- without clear guidelines and with the clock ticking -- enjoy an extraordinary advantage. Think Like a Rocket Scientist will inspire you to take your own moonshot and enable you to achieve liftoff. *Uncover and Overcome the Lies Holding You Back from Success* Penguin

"It's a startling and disconcerting read that should make you think twice every time a friend of a friend offers you the opportunity of a lifetime." —Erik Larson, #1 New York Times bestselling author of

Dead Wake and bestselling author of Devil in the White City Think you can't get conned? Think again. The New York Times bestselling author of Mastermind: How to Think Like Sherlock Holmes explains how to spot the con before they spot you. "[An] excellent study of Con Artists, stories & the human need to believe" —Neil Gaiman, via Twitter A compelling investigation into the minds, motives, and methods of con artists—and the people who fall for their cons over and over again. While cheats and swindlers may be a dime a dozen, true conmen—the Bernie Madoffs, the Jim Bakkers, the Lance Armstrongs—are elegant, outsized personalities, artists of persuasion and exploiters of trust. How do they do it? Why are they successful? And what keeps us falling for it, over and over again? These are the questions that journalist and psychologist Maria Konnikova tackles in her mesmerizing new book. From multimillion-dollar Ponzi schemes to small-time frauds, Konnikova pulls together a selection of fascinating stories to demonstrate what all cons share in common, drawing on scientific, dramatic, and psychological perspectives. Insightful and gripping, the book brings readers into the world of the con, examining the relationship between artist and victim. The Confidence Game asks not only why we believe con artists, but also examines the very act of believing and how our sense of truth can be manipulated by those around us.

Think Like Sherlock Harmony

Arguably the most famous and recognized detective in history, Sherlock Holmes is considered by many to be the first pop icon of the modern age. Sir Arthur Conan Doyle's fictional detective has stood as a unique figure for more than a century with his reliance on logical rigor, his analytic precision, and his disregard of social mores. A true classic, the Sherlock Holmes character continues to entertain twenty-first-century audiences on the page, stage, and screen. In *The Philosophy of Sherlock Holmes*, a team of leading scholars use the beloved character as a window into the quandaries of existence, from questions of reality to the search for knowledge. The essays explore the sleuth's role in revealing some of the world's most fundamental philosophical issues, discussing subjects such as the nature of deception, the lessons enemies can teach us, Holmes's own potential for criminality, and the detective's unique but effective style of inductive reasoning. Emphasizing the philosophical debates raised by generations of devoted fans, this intriguing volume will be of interest to philosophers and Holmes enthusiasts alike.
