"This book is a warmhearted handshake, a graceful and practical invitation to enter and blend with the ahhh of the world. It is as natural and wise an introduction to the spirit of the martial arts as you can find on paper."—Jack Kornfield, bestselling author of *A Path with Heart* In his bestselling *Mastery*, renowned spiritual and martial arts teacher George Leonard taught hundreds of thousands of people how to use Zen philosophy to reach mastery in any field. Now, he brings together his extraordinary knowledge and experience into a book that translates the principles of aikido directly into our everyday lives. Aikido is more philosophy and meditation than a technique or a series of purely physical maneuvers. Leonard shares the secrets of this remarkable Eastern philosophy, which is the basis for the most radical and demanding of all martial arts. Through mind-body exercises inspired by aikido yet designed for non-practitioners, he demonstrates the fundamental understanding behind aikido and shows how it can be applied to help set us on the path to composure, self-sufficiency, and spiritual centeredness.

Combining illuminating personal anecdotes with practical advice, this award-winning author describes the ways in which aikido can help turn life's unanticipated blows into gifts and transform discord into harmony, anxiety and pain into vital energy.

Exhilarating, enlightening, and filled with unique wisdom, *The Way of Aikido* is an inspiring lesson in balance, confidence, and power. "The Way of Aikido does no less than open the door to the universe and invite you through to become one with it, to become balanced, powerful, energetic, alert, and present."—Susan Trott, author of *The Holy Man* and *Crane Spreads Wings*

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. _____ (From the Playboy interview with Jay-Z, April 2003)

PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

The founder and director of the Thirty Million Words Initiative, Professor Dana Suskind, explains why the most important--and astoundingly simple--thing you can do for your child's future success in life is to talk to them. What nurtures the brain to optimum intelligence and stability? It is a secret hiding in plain sight: the most important thing we can do for our children is to have conversations with them. The way you talk with your growing child literally builds his or her brain. Parent talk can drastically improve school readiness and lifelong learning in everything from math to art. Indeed, parent-child talk is a fundamental, critical factor in building grit, self-control, leadership skills, and generosity. It is crucial to making the most in life of the luck you have with your genes. This landmark account of a new scientific perspective describes what works and what doesn't (baby talk is fine; relentless correction isn't). Discover how to create the best "language environments" for children by following the simple structure of the Three Ts: Tune In; Talk More; Take Turns. Dr. Suskind and her colleagues around the country have worked with thousands of families; now their insights and successful, measured approaches are available to all. Willpower Doesn't Work Profile Books

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing*. Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book

that will change how we think and transform how we live.
