Study Guide for Perry's Maternal Child Nursing Care in Canada, E-Book Elsevier Health Sciences
'Think like a nurse' with the 2nd Edition of this AJN Book-of-the-Year Award winner. It offers the perfect balance of maternal and child nursing care with the right depth and breadth

of coverage for students in today's maternity/pediatric courses. And, it's accompanied by The Women's Health Companion, a complete guide to the role of the nurse in promoting women's health. A unique emphasis on optimizing outcomes, evidence-based practice, and research supports the goal of caring for women, families and children, not only in traditional hospital settings, but also wherever they live, work, study, or play. Clear, concise, and easy to follow, the content is

organized around four major themes, holistic care, critical thinking, validating practice, and tools for care that help students to learn and apply the material. Don't miss the Plus Code, inside new, printed texts. It unlocks the resources online at DavisPlus, including Davis Digital Version, your complete text online, and an Electronic Study Guide with learning tools and clinical resources. Click here to see an overview of everything this resource has to offer. What instructors are saying... "Well

written, eye-catching and well organized chapters" - Sami Rahman, MEd, MSN, RN Blinn College "Clear, concise, uses tables and figures to support important concepts and content." - Darlene A. Ardary, PhD, RN, CPN, CSN Lock Haven University "It is thorough on content and it contains many student tools like charts, tables and concept maps." - Carmen Torres MSN, MHS, RN, CNE Bergen Community College "I like the different aspects that are included

that get the students engaged in learning. It is a comprehensive text to use when teaching Maternal child nursing. It is simple enough for all students but engaging enough to keep even your most adept student challenged." - Teresa Carnevale, PhD, MSN, RN Beaver College of Health Sciences "A complete continuum of the child from preconception through adolescents. All inclusive in a easy to read and understandable format." - Stephanie Palmersheim

MSN, RN St. Luke's College Sioux City, Iowa "Good flow with information and material from Care of Maternal Health Nursing to Care of Pediatric Nursing." - Lisa Stoddart, MSN, RN, FNP-BC Associate Nursing Professor Pediatrics San Joaquin Delta College Awarded third place in the 2015 AJN Book of the Year Award in the Maternal-Child Nursing/Childbirth category Davis Advantage for Maternal-Child Nursing Care Elsevier Health Sciences Build your skills in the science and art of maternity and pediatric nursing!

Maternal-Child Nursing, 6th Edition makes it easy to understand the essentials of women ' s health, maternity, and children ' s nursing care. It simplifies the steps of the nursing process and relates them to care, helping you develop clinical judgment skills and provide safe, effective care in evidence-based practice. This edition adds case studies preparing you for the new Next Generation NCLEX® examination. Best of all, active learning tools and features make it fun to master nursing concepts, offering plenty of opportunities to apply your knowledge to the practice setting. Nursing Care Plans help students apply

the nursing process to plan individualized care in the most common maternity and pediatric situations. Clinical Reference sections in pediatrics chapters provide basic information on disorders and their related anatomy and physiology, differences in body systems between children and adults, commonly used drugs, lab values, diagnostic tests, and procedures. Clinical Judgment boxes highlight situations designed to test clinical judgment skills. Health Promotion boxes highlight information needed to perform a comprehensive assessment of well infants and children at various ages. Safety Alerts emphasize what is important to

remember when providing safe and optimal quality care. Pathophysiology boxes present an illustrated overview of illnesses and how to manage them. Want to Know boxes provide teaching guidelines, including sample answers for questions that are likely to be asked or topics that need to be taught. Communication Cues offer practical tips for verbal and nonverbal communication with patients and families. Glossary at the end of the book gives students quick access to all key terms and definitions. NEW! Next Generation NCLEX® (NGN) examination-style case studies expose students to how content will be tested in the exam; case

studies are either single situation or unfolding studies. NEW! Updated Drug Guides summarize the latest information on medications. Maternal-Newborn Nursing Prentice Hall Featuring the most accurate, current, and clinically relevant information available, Perry ' s Maternal Child Nursing Care in Canada combines essential maternity and pediatric nursing information in one text. Comprehensive coverage includes promotion of wellness and the care for persons

experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Medication Alerts

stress medication safety concerns for better therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric	patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting,	women's health concerns, and caring for sick children. Evidence-Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care.
---	---	---

Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved

in their own care with optimal outcomes. Maternal-Child Nursing - Text and Simulation Learning System Package Elsevier Health Sciences Master content from the textbook with this helpful study tool! Designed to accompany Perry's Maternal Child Nursing Care, 4th Edition, this workbook will assist students in understanding and applying material from each chapter in the text. Maternal Child Nursing Care - E-Book Pearson "For courses in

maternal and child nursing care in any nursing program" Help students think like nurses with maternal-newborn and pediatric clients As nursing courses are shortened and clinical experiences become more limited, time is increasingly precious to both students and faculty. Designed to support faster, more efficient learning in condensed courses, " Maternal & Child Nursing Care "presents key content about maternal-newborn nursing, women s health, and

pediatric nursing topics in an accurate, readable way. Throughout this family-focused text, special attention is paid to health promotion, home/community care, patient and family education, clinical reasoning, evidence-based practice, and cultural competence. Engaging features help readers learn and retain essential concepts in a short period of time. The straightforward approach allows students to focus on what is most important developing the

essential skills and abilities to practice nursing in fast-changing healthcare environments. Also available with MyNursingLab(r) MyNursingLab is an an online homework, tutorial, and assessment program designed to engage students in the Maternal/Neonatal Nursing course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application.

Evolve Student Resources Website

offers up-to-date web links, video clips, resources for health care providers, review questions, and a variety of interactive exercises. Integrated electronic features match icons in the text, so you can use print and electronic resources more effectively together. Using Research to Improve Practice boxes help you determine proper care to reinforce best practice. Spanish translations are included for phrases commonly encountered with maternity and pediatric patients. Improved design makes the text easier to read, and up-to-date photos ensure accuracy. Maternal-Child Nursing Care W B Saunders Company

Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let

students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.

Maternal Child Nursing Care F.A. Davis
