Maternal Newborn Nursing Journal MCN, The American Journal of Maternal/Child Nursing. 45 (5):253, September/October 2020. In this special topics series on maternity, neonatal, and pediatric nurse staffing and the nursing work environment, we present four studies that cover challenges of practicing in stressful clinical settings including inadequate nurse

staffing and unsafe environments, relative to potential implications for patients and nurses.

Collection Details : MCN: The American Journal of Maternal ...
1. Introduction and background. Bonding is crucial to an individual's lifetime developmental process. Attachment theory describes bonding as a continuous process in which a child creates a relationship with the mother .The first hour of life after birth is the ideal time for maternal – newborn bonding to proceed , .This process enables parents and infants to involuntarily establish a nurturing ...
