Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions.

Canadian Maternity and Pediatric Nursing F.A. Davis

Leifer's Study Guide for Introduction to Maternity and Pediatric Nursing is a rich resource that enhances your comprehension and application of material from every chapter of the textbook. With a variety of learning activities, critical thinking exercises, case studies, and review questions, this study guide reinforces your mastery of the essential maternity and pediatric nursing concepts and skills you need to pass the NCLEX-PN® Examination and succeed in your nursing career. NCLEX exam-style multiple-choice review questions at the end of each chapter test basic chapter knowledge as well as ask for appropriate nursing actions, what the nurse should expect in terms of medical care of the patient, and what complications the patient is at risk of developing. Case Studies and Applying Knowledge activities provide additional opportunities to apply learned information to clinical care. Thinking Critically activities require you to apply what you've learned in the textbook to new situations and draw conclusions based on that knowledge. Learning activities include matching, labeling, and completion exercises to help you learn basic concepts of maternity and pediatric nursing. Crossword puzzles in selected chapters are a nice way to change up the format when testing comprehension of terms and concepts. Answer key is located on the student's Evolve website.

Maternity and Pediatric Nursing Addison Wesley Longman

Build the knowledge and clinical judgment you need to succeed in maternity and pediatric nursing! Written in a clear, easy-to-read style, Introduction to Maternity and Pediatric Nursing, 9th Edition describes how you can provide effective, evidence-based care for women during pregnancy, labor, and delivery, and for newborns and growing children. The text spans the continuum of child development, organizing topics from simple to complex and from health to illness; this approach makes it easy to locate information. Another hallmark of the book is its strong focus on family-centered care, health promotion, and illness prevention. Written by noted nursing educator Gloria Leifer, this bestselling text includes new Next-Generation NCLEX® exam-style case studies plus updates on infection control, pandemic responses, and more. Unfolding case studies follow one family through the conception and birth process, and include open-ended critical thinking questions applying the content to practice. More than 25 nursing care plans include nursing diagnoses plus goals, nursing interventions, and rationales, along with critical thinking questions to promote clinical decision-making skills. Detailed nursing skills cover a wide range of maternal and pediatric nursing interventions. Safety alerts highlight the importance of protecting patients and others from accidents, medication errors, and the spread of disease. Nursing tips include practical, evidence-based information applicable in the clinical setting. Nursing guidelines reflect the World Health Organization's Baby Friendly Hospital Initiative, alternative therapies, immunization mandates, emergency preparedness, preventing medication errors, and more. Get Ready for the NCLEX® Examination! at the end of each chapter includes a summary of key points, additional online resources, review questions, and critical thinking questions. Cultural Considerations boxes help you address the needs of culturally diverse patients and families. Patient Teaching boxes help you communicate instructions for self-care with patients and families. Medication tables provide quick access to information about commonly used medications. NEW! Next-Generation NCLEX® examination-style case studies include new-format questions to help you prepare for the licensure examination. NEW! Discussion of the NCSEB Clinical Judgment Measurement Model helps you learn decision making and develop the skills needed to plan effective nursing interventions. NEW! Thorough updates include infection control, pandemic responses, pharmacologic tables, and pediatric treatments.

Pediatric Nursing Media Edition 2/E & Maternity Nursing Media Edition 1/E LWW

Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. Reviewing Key Concepts questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.
