"Beating them All!" is a universal preparation manual that will assist test-takers across the country in beating any

---

elementary reading instruction exam (National Evaluation Systems, Inc. (NES) exam). The strategies and methods presented in this text are research-based and will allow candidates the best opportunity to pass on their first attempt. Features: Universal, Comprehensive Preparation. The areas include "case studies, short answers, " and "multiple-choice questions." It will be an invaluable resource for students who want and need to pass NES exams. Sound Preparation Methods. The preparation methods in this manual have been field tested, refined, and re-tested with groups of real students facing these exams. It includes repeatable attack-plans on time management. Effective Strategies. All of the defined strategies in "Beating them All!" have been field tested and refined to ensure effectiveness and ease in acquisition/application. Valid Content. The core reading-instruction content that is assessed on the RICA, and the other NES exams, has been identified and validated through separate explorations. Because NES exams share so much of this core content, it is essential for all candidates to know the material in "Beating them All!" in advance

of taking any test. "The strengths of this text are in the area of analysis of various reading and writing components and test issues, which are seamlessly and brilliantly presented in a cogent and compelling manner. Use of advanced organizers makes a complex and often intimidating discipline approachable and comprehensible." Professor Carol Wareing, "Merrimack College" Author Bio: Dr. Chris Nicholas Boosalis received his Ph.D. in Curriculum and Instruction from Arizona State University in 1998. He is an Associate Professor of Teacher Education at California State University, Stanislaus where he teaches reading-instruction methods to elementary and secondary credential candidates.

This guide, aligned specifically**

to standards prescribed by the Georgia Professional Standards Commission, covers the sub-areas of Understanding Students with Disabilities; Assessing Students and Developing Programs; Promoting Student Development and Learning; and Working in a Professional Environment.

Methods, Strategies, and Elementary Content for Beating AEPA, FTCE, ICTS, MSAT, MTEL, MTTC, NMTA, NYSTCE, OSAT, PLACE, PRAXIS, and TEXES Test Prep Books

This resource helps teachers pass the required elementary subject exams for earning a teaching credential. Because passing these tests is now required in many states, this book has been designed to address the essential time-management methods, essay and multiple-choice strategies, and content that test takers must master in order to pass any section of the exam. Unlike other preparation books, this one does not simply offer a copy of MSAT materials. Instead, the content, constructed-response and multiple-choice strategies, and special time-management models for the tests are all research based and tailored to cover each domain and content area of any of the exams. This valuable new resource: Offers effective time-management models. Critical time-management models for taking the whole exam in one sitting or individually are fully explained. Presents the "real" scores required on each subtest. The book reveals the real scores required to pass each subtest and a method to achieve them. Demonstrates effective constructed-response. Eleven essential essays (language arts, social studies, science, math, and the humanities) are presented and dissected for candidates. Deconstructs multiple-choice questions. The multiple-choice section of the exam is challenging because many of the questions are lengthy, jargon-rich, or simply do not count toward one's score. Strategies are

---

required and explained. Addresses each of the content areas from elementary education: language arts, history and social studies, science, mathematics, and as well as the humanities, including P.E., health, child development, and the arts.
