Community Colleges in Virginia require new students to take a test for math placement. Often students do poorly on this test just because they are not

prepared -- and then they may get set back a semester or even a year taking developmental math. This book explains the answers to the practice questions for the Virginia Community College System's math placement test (for the developmental math section only). Use it to prepare for the test so you can get the score you need to start college taking the math you want.

Note: The questions whose answers are explained in this book are not included. To use the book you will need to use the Internet to see the questions. (Or email the author, who will send the questions to you.)

Miller Test Prep's study guide for the ACCUPLACER is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. We compiled their decades of experience helping students just like you into this study guide, so you pass the first time!
