Placement tests are rapidly joining the ranks of high-stakes testing and college freshmen are required to take mathematics placement exams to determine their first mathematics course upon entering college. Unfortunately, these exams tend to place students in a lower-level or remedial course. As a result, additional expenses are incurred; degree programs are extended; and scholarships, awards, and external funding are less likely. Helping Student Prepare for College Mathematics Placement Tests: A Guide for Teachers and Parents includes two sample placement tests, a guide that shows what entry course a student will be assigned with a given score, and explanations on material that students might have forgotten or never quite understood. This guide is sure to help students excel!

Community Colleges in Virginia require new students to take a test for math placement. Often students do poorly on this test just because they are not prepared -- and then they may get set back a semester or even a year taking developmental math. This book explains the answers to the practice questions for the Virginia Community College System's math placement test (for the developmental math section only). Use it to prepare for the test so you can get the score you need to start college taking the math you want. Note: The questions whose answers are explained in this book are not included. To use the book you will need to use the Internet to see the questions. (Or email the author, who will send the questions to you.)
