Math Jokes 4 Mathy Folks is an absolute gem...---Jim Rubillo Professor Emeritus, Bucks County Community College, Newtown, PA The jokes in this book are well-chosen and cover a wide spectrum, from jokes for kids to jokes for math majors, from corny to thought-provoking---Art Benjamin Professor and Mathemagician, Harvey Mudd College, Claremont, CA This is a book that every math teacher from elementary school through college should have in their classroom library. Who said math can't be funny?---Victoria Miles, Middle Grades Math Teacher, Weymouth, MA Patrick Vennebush has put together the most comprehensive set of mathematical jokes I have ever seen...if you like math and you like jokes---or if you need a joke to liven up an otherwise dull and boring lecture---then you need to buy this book.---Guy Brandenburg, Retired Teacher, Washington, DC Math nerds and punsters rejoice! This is the book you've been waiting for---your perfect source for that one-liner to impress your girlfriend, boyfriend, or 8th-grade math teacher. ---Cathy Seeley, Past President, NCTM; Author of Faster isn't Smarter---Messages About Math, Teaching and Learning in the 21st Century I haven't laughed so hard since I discovered that imaginary numbers are just numbers with a not-so-real complex. Enjoy!---Edward B. Burger Professor, Williams College Williamstown, MA When not solving problems, telling jokes, or playing ultimate, G. Patrick Vennebush manages online projects for the National Council of Teachers of Mathematics. He has an M.A. in curriculum and instruction from the University of Maryland. He lives in northern Virginia with his wife Nadine, who laughs at 80% of his jokes; his twin toddlers Alex and Eli, who only appreciate 20% of his humor; and his golden retriever Remy, who has never been very good with percents

Yana Parker has helped hundreds of thousands of job seekers write and refine their resumes to damn near perfection. Her resume guides have been praised for their user-friendly style and savvy advice and, rightly so, have become staples in libraries, career centers, and employment offices nationwide. Now, in this fully revised and updated edition of the best-seller, you can quickly garner resume-writing wisdom by following 10 easy steps to a damn good resume. Also included are completely new sections on formatting resumes and submitting resumes over the Internet. Here is a resume guide you can count on to help you get that resume done fast and get it done right.

Eleven Years Mathcounts State Competition Solutions CreateSpace

This is a solution (not problems) book for 2019 Mathcounts School and National Competition Sprint round, Target round, and Team round problems. Please contact mymathcounts@gmail.com for suggestions, corrections, or clarifications of the solutions.

2016-2020 MATHCOUNTS Chapter and State Competition Countdown Round Solutions CreateSpace

This problems book is for high school students who need extra practice preparing for American Math Competitions 10 and 12. It contains over 500 problems (with solutions) accompanying the lectures 1 through 25 of our 50 Lectures for American Mathematics Competitions books.

Competition Math for Middle School Createspace Independent Publishing Platform

This book consists of unofficial solutions for the 2016--2020 MATHCOUNTS chapter & state countdown round problem sets (not including the problem sets because they are copyrighted materials).

The Art of Problem Solving, Volume 1 CreateSpace

The 39 self-contained sections in this book present worked-out examples as well as many sample problems categorized by the level of difficulty as Bronze, Silver, and Gold in order to help the readers gauge their progress and learning. Detailed solutions to all problems in each section are provided at the end of each chapter. The book can be used not only as a text but also for self-study. The text covers algebra (solving single equations and systems of equations of varying degrees, algebraic manipulations for creative problem solving, inequalities, basic set theory, sequences and series, rates and proportions, unit analysis, and percentages), probability (counting techniques, introductory probability theory, more set theory, permutations and combinations, expected value, and symmetry), and number theory (prime factorizations and their applications, Diophantine equations, number bases, modular arithmetic, and divisibility). It focuses on guiding students through creative problem-solving and on teaching them to apply their knowledge in a wide variety of scenarios rather than rote memorization of mathematical facts. It is aimed at, but not limited to, high-performing middle

school students and goes further in depth and teaches new concepts not otherwise taught in traditional public schools.

The All-Time Greatest Mathcounts Problems Createspace Independent Publishing Platform

Your book is "fabulous". I spent two hours last night working problems from it. I'm planning to use some in what I do with teachers, with citation of course. I love it. I love the clever problems you came up with and the clever solutions of the MATHCOUNTS problems you used. Dr. Harold Reiter, former Chairman of Mathcounts Question Written Committee, Math Professor, UNC at Charlotte Being responsible for the publications we put out at MATHCOUNTS, I understand the incredible amount of work this required. Congratulations on such a great accomplishment. ---Kristen Chandler Mathcounts, Deputy Director & Program Director I just finished going through with it. As for the book, I'm pretty impressed. It really seems you put a lot of time and effort into it, and I liked it. - Calvin Deng 2010 USA IMO Team Member, Silver Medalist I bought this book together with "Twenty More Problem Solving Skills" for my 6th grade daughter, who loves math, and is preparing for AMC and MathCounts competition. She is very excited with these two books, and learns a lot from these two books in her math competitionpreparation. We recommend this book as a must have math competition collection. - -A parent

Pete the Cat and His Four Groovy Buttons McGraw-Hill Education

"Math educators always seek great problems and tasks for the classroom, and this collection contains many that could be used in various grades. By using this book, the reader will understand ways that great problems can be used to encourage student participation and to promote powerful mathematical ideas. In addition, suggestions for how problems can be presented in the classroom will provide professional development to teachers in the form of effective routines for promoting problem solving. This book would be both a fun read for NTCM's membership"--

Twenty Mock Mathcounts Target Round Tests CreateSpace

The book contains ten tests that can be used to train students' speed and accuracy during Mathcounts competitions at school, chapter, state, and national levels. Each test has two parts. Part I trains students calculation speed with number sense. Part II trains students reading and problem solving skills. Each problem in Part II has the detained solutions.
