March 2005 As long ago as the Ancient Greeks, warring armies have encrypted their communications in an attempt to keep their battle plans a secret from their enemies. However, just as one side invented an ingenious new way to encipher its messages, so would its enemies discover a clever way of cracking that code. The result has been that codes and ciphers have become more and

Word Search Solver - Word Finder - Online Software Tool  
A word search puzzle can be solved by browsing the whole grid, rown after row, letter after letter, and try to find words in the 4 direction (2 horizontal: from left to right or from right to left backward, 2 vertical: from top to bottom and from bottom to top) or even 8 directions with diagonals, in order to find words. A complementary technique consists in aiming the unused letters.
